Art Deco San Francisco The Architecture Of Timothy Pflueger:

Art Deco San Francisco Therese Poletti, 2008-09-03 The Castro Theatre the Pacific Telephone and Telegraph Headquarters 450 Sutter Medico Dental Building these masterpieces of San Francisco's Art Deco heritage are the work of one man Timothy Pflueger An immigrant's son with only a grade school education Pflueger began practicing architecture after San Francisco's 1906 earthquake While his contemporaries looked to Beaux Arts traditions to rebuild the city he brought exotic Mayan Asian and Egyptian forms to buildings ranging from simple cocktail lounges to the city's first skyscrapers Pflueger was one of the city's most prolific architects during his 40 year career He designed two major downtown skyscrapers two stock exchanges several neighborhood theaters movie palaces for four smaller cities including the beloved Paramount in Oakland some of the city's biggest schools and at least 50 homes His works include the San Francisco Stock Exchange the ever popular Top of the Mark the San Francisco Oakland Bay Bridge and the San Francisco World's Fair It is a testament to his talent that many of his buildings still stand and many have been named landmarks Therese Poletti tells the fascinating story of Pflueger's life and work in Art Deco San Francisco In lively detail she relates how Pflueger built extravagant compositions in metal concrete and glass She also tells the story behind the architecture Pflueger's commissioning and support of muralist Diego Rivera his association with photographer Ansel Adams and sculptor Ralph Stackpole and his childhood friendship turned to adulthood sponsorship with San Francisco Mayor James Sunny Rolph Jr Beautiful archival photography mixes with stunning new photography in this collection of a truly Californian but ultimately American story

San Francisco Art Deco Michael F. Crowe, Robert W. Bowen, 2007 The famed period of architecture design and style known as Art Deco began in the mid 1920s and lasted for a good 20 years The movement left an indelible stamp all around the Bay Area but nowhere more so than in style-conscious San Francisco The city's 1925 Diamond Jubilee coinciding with the Exposition Internationale des Arts Decoratifs et Industriels Modernes in France ushered in the Art Deco age to the city by the bay The Roaring Twenties created a need for thousands of new commercial and residential buildings and many of these such as Timothy Pflueger's Pacific Telephone and Telegraph building were Art Deco masterpieces that embodied the new moderne styling sweeping the country Using a variety of building materials including terracotta Vitrolux and neon many of the city's graceful and dramatic buildings turned heads 70 years ago just as they do today

Diego Rivera's America James Oles, 2022-07-19 Diego Rivera's America revisits a historical moment when the famed muralist and painter more than any other artist of his time helped forge Mexican national identity in visual terms and imagined a shared American future in which unity rather than division was paramount This volume accompanies a major exhibition highlighting Diego Rivera's work in Mexico and the United States from the early 1920s through the mid 1940s During this time in his prolific career Rivera created a new vision for the Americas on both national and continental levels informed by his time in both countries Rivera's murals in Mexico and the U S serve as points of departure for a critical and contemporary understanding of one of

the most aesthetically socially and politically ambitious artists of the twentieth century Works featured include the greatest number of paintings and drawings from this period reunited since the artist s lifetime presented alongside fresco panels and mural sketches This catalogue serves as a guide to two crucial decades in Rivera s career illuminating his most important themes from traditional markets to modern industry and devoting attention to iconic paintings as well as works that will be new even to scholars revealing fresh insights into his artistic process Published by the San Francisco Museum of Modern Art in association with University of California Press Exhibition dates San Francisco Museum of Modern Art July 16 2022 January 1 2023 Crystal Bridges Museum of American Art Bentonville Arkansas March 11 July 31 2023

Washington and Baltimore Art Deco Richard Striner, Melissa Blair, 2014-04-30 Art Deco buildings still lift their modernist principles and streamlined chrome into the skies of Baltimore and Washington D C Second Place Winner of the Design and Effectiveness Award of the Washington Publishers The bold lines and decorative details of Art Deco have stood the test of time since one of its first appearances in the International Exhibition of Modern Decorative and Industrial Arts in Paris in 1925 Reflecting the confidence of modern mentality streamlined chrome and glossy black along with simple elegance sharp lines and cosmopolitan aspirations Art Deco carried surprises juxtaposing designs growing out of speed racecars and airplanes with ancient Egyptian and Mexican details visual references to Russian ballet and allusions to Asian art While most often associated with such masterworks as New York s Chrysler Building Art Deco is evident in the architecture of many U S cities including Washington and Baltimore By updating the findings of two regional studies from the 1980s with new research Richard Striner and Melissa Blair explore the most significant Art Deco buildings still standing and mourn those that have been lost This comparative study illuminates contrasts between the white collar New Deal capital and the blue collar industrial port city while noting such striking commonalities as the regional patterns of Baltimore s John Jacob Zinc who designed Art Deco cinemas in both cities Uneven preservation efforts have allowed significant losses but surviving examples of Art Deco architecture include the Bank of America building in Baltimore now better known as 10 Light Street and the Uptown Theater on Connecticut Avenue NW in Washington Although possibly less glamorous or flamboyant than exemplars in New York or Miami the authors find these structures along with apartment houses and government buildings typical of the Deco architecture found throughout the United States and well worth preserving Demonstrating how an international design movement found its way into ordinary places this study will appeal to architectural historians as well as regional residents interested in developing a greater appreciation of Art Deco architecture in the mid Atlantic region

Depression-Era Sculpture of the Bay Area Nicholas A. Veronico and Betty S. Veronico, 2017 The Great Depression was a terrible blow for the Bay Area s thriving art community A few private art projects kept a small number of sculptors working but for the majority prospects of finding new commissions were grim By the mid 1930s Pres Franklin D Roosevelt s New Deal program had gathered steam and assistance was provided to the nation s art community Salvation came from the Works Progress

Administration WPA which employed thousands of artists to produce sculpture for public venues The Bay Area art community subsequently benefitted from the need to fill the then forthcoming Golden Gate International Exposition GGIE with sculpture of all shapes and sizes As bad as the Depression was its legacy more than 80 years on is one of beauty The Bay Area is dotted with sculpture from this era the majority of it on public display Depression Era Sculpture of the Bay Area is a visual tour of this artistic bounty

Into the Void Pacific Andrew Shanken, 2015-01-16 Published on the occasion of the expo s 75th anniversary Into the Void Pacific is the first architectural history of the 1939 San Francisco World s Fair While fairs of the 1930 s turned to the future as a foil to the Great Depression the Golden Gate International Exposition conjured up geographical conceits to explore the nature of the city s place in what organizers called Pacific Civilization Andrew Shanken adopts D H Lawrence s suggestive description of California as a way of thinking about the architecture of the Golden Gate International Exposition using the phrase void Pacific to suggest the isolation and novelty of California and its habit of looking West rather than back over its shoulder to the institutions of the East Coast and Europe The fair proposed this vision of the Pacific as an antidote to the troubled Atlantic world then descending into chaos for the second time in a generation Architects took up the theme and projected the regionalist sensibilities of Northern California onto Asian and Latin American architecture Their eclectic referential buildings drew widely on the cultural traditions of ancient Cambodia China and Mexico as well as the International Style Art Deco and the Bay Region Tradition The book explores how buildings supported the cultural and political work of the fair and fashioned a second parallel world in a moment of economic depression and international turmoil Yet it is also a tale of architectural compromise contingency and symbolism gone awry With chapters organized around the creation of Treasure Island and the key areas and pavilions of the fair this study takes a cut through the work of William Wurster Bernard Maybeck Timothy Pflueger and Arthur Brown Jr among others Shanken also looks closely at buildings as buildings analyzing them in light of local circumstances regionalist sensibilities and national and international movements at that crucial moment when modernism and the Beaux Arts intersected dynamically

The Coit Tower Murals
Robert W. Cherny, 2024-11-12 Created in 1934 the Coit Tower murals were sponsored by the Public Works of Art Project PWAP the first of the New Deal art programs Twenty five master artists and their assistants worked there most of them in buon fresco Nearly all of them drew upon the palette and style of Diego Rivera The project boosted the careers of Victor Arnautoff Lucien Labaudt Bernard Zakheim and others but Communist symbols in a few murals sparked the first of many national controversies over New Deal art Sixty full color photographs illustrate Robert Cherny s history of the murals from their conception and completion through their evolution into a beloved San Francisco landmark Cherny traces and critiques the treatment of the murals by art critics and historians He also probes the legacies of Coit Tower and the PWAP before surveying San Francisco s recent controversies over New Deal murals An engaging account of an artistic landmark The Coit Tower Murals tells the full story behind a public art masterpiece

Lost Department Stores of San Francisco Anne Evers Hitz ,2020 In the late nineteenth century San Francisco s merchant princes built grand stores for a booming city each with its own niche For the eager clientele a trip downtown meant dressing up hats gloves and stockings required and going to Blum s for Coffee Crunch cake or Townsend s for creamed spinach The I Magnin empire catered to a selective upper class clientele while middle class shoppers loved the Emporium department store with its Bargain Basement and Santa for the kids Gump s defined good taste the City of Paris satisfied desires for anything French and edgy youth oriented Joseph Magnin

A Better Way to Build Michael R. Adamson, 2013 While architects have been the subject of many scholarly studies we know very little about the companies that built the structures they designed This book is a study in business history as well as civil engineering and construction management It details the contributions that Charles J Pankow a 1947 graduate of Purdue University and his firm have made as builders of large often concrete commercial structures since the company's foundation in 1963 In particular it uses selected projects as case studies to analyze and explain how the company innovated at the project level The company has been recognized as a pioneer in design build a methodology that involves the construction company in the development of structures and substitutes negotiated contracts for the bidding of architects plans The Pankow companies also developed automated construction technologies that helped keep projects on time and within budget The book includes dozens of photographs of buildings under construction from the company's archive and other sources At the same time the author analyzes and evaluates the strategic decision making of the firm through 2004 the year in which the founder died

While Charles Pankow figures prominently in the narrative the book also describes how others within the firm adapted the business so that the company could survive a commercial market that changed significantly as a result of the recession of the 1990s Extending beyond the scope of most business biographies this book is a study in industry innovation and the power of corporate culture as well as the story of one particular company and the individuals who created it
