The Art of Selling Art Bill Ritchie,1991 **Ritchie Mined - Volume I** Bill H. Ritchie,2018-05-03 Short summaries of 3026 essays by Bill H Ritchie artist teacher and visionary drawn from his journals written between 1969 2009 He structured the headings of each article according an imaginary place he calls Emeraldalda imagining ten islands on a lake where he as a recipient of a mythical prize is encouraged to write freely about anything that seems important to an artist teacher and philosopher Mindful of the use of new technologies each essay summary has key index features which would allow a reader having a computer and optional CD ROM to retrieve the full text of any article Or using freely chosen keywords of their own find the articles which have those words in them *The Art of Selling Art* Bill Ritchie,1989 **Art of Selling Prints** Bill Ritchie,2011-11-14 He walked out of a tenured position as an art professor into the uncertain world of making a living on his art His students had already made their names One quipped You re going to learn what we did when we graduated That was in 1985 It took Bill six years trying ways to earn money to get by consulting freelancing temporary teaching at different colleges and finally selling his art A chance encounter with a salesman led Bill to books about the sales profession and three years later writing his own book This is what came from not only reading but also applying what he found in books like *Mastering the Art of Selling* and others Is selling an art Bill was a snob about art and printmaking in particular after teaching in the fine arts n the university for 19 years so to say selling is an art was repulsive but he grew to respect the sales person s profession they see their job as one of solving problems for people in all manners of things Is it a problem people don t own your art It might sound manipulative and wrong somehow Reading this book will give you the whole story from Bill s viewpoint He wrote as he walked through the experience like walking your talk but more accurately writing his walk in the world of selling art This is a new and revised edition of his 1993 book *Art of Selling Art Between Production and Livelihood* focused on printmaking the art form Bill calls his native art *Escape Emeraldalda 2* Bill H. Ritchie,2024-03-27 Disclosure This description was prompted and edited by Bill Ritchie in Microsoft s current Copilot an AI text generator for the second volume of Bill H Ritchie s two part autobiography We traverse the years from 1991 to 2023 Ritchie a trailblazer in the art world continues his life story In the first book he told how he embarked on a remarkable odyssey that defied convention and reshaped the art craft and design of fine art printmaking At the tender age of 24 Ritchie secured a groundbreaking position the youngest ever in the vibrant city of Seattle His appointment as a teaching artist in fine art printmaking at the University of Washington marked the beginning of a transformative chapter But this was no ordinary academic journey Ritchie s innovative spirit would soon set him apart a maverick in academe The traditional classroom was too confining for Ritchie Driven by a hunger for exploration he wove technology into his art courses in the 1980s Bill Ritchie s experiments disrupted the staid printmaking department and shocked the UW School of Art Forced to leave the stifling ivory towers by the 1990s the emergence of electronic arts opened with the Internet and would extend the boundaries of printmaking Ritchie s vision

blurred the lines between historic creativity and cutting edge technology birthing a new era dating back to the Paleolithic era when printmaking was invented Ritchie pushed the envelope Printmaking was no longer confined to ink and paper it now danced with video performance computer graphics and games His colleagues patrons and former students watched in awe wondering at the audacity of his moves Telling all Ritchie weaves rich detailed tales In his printed books he placed thousands of pictures to enliven the narrative capturing moments shared with those who left their marks on his journey QR codes link videos and backstories bridging epochs from prehistoric cave paintings to the digital age The echoes of ancient handprints resonate showing that explication transcends time if replicated creatively In a world illuminated and echoed by electronic media Ritchie poses a poignant question Is there hope As climate change and global stressors threaten the future his words resonate Whether through brushstrokes or those fleeting elusive pixels and here in eBook form and auxiliary Read Aloud option Ritchie s legacy endures a beacon for students of all ages urging them to embrace creativity defy boundaries and find hope in the interplay of art technology and the human imagination

Escape Emerald Bill H. Ritchie, 2023-11-30 My life from my birthday to the last decade of 1900s is a spectrum of events both good and bad as I follow T S Elliot s lines We shall not cease from exploration And the end of all our exploring Will be to arrive where we started And know the place for the first time Growing up on my father s farm there was plenty of exploration but I never went back to the farm Far from it My explorations took me where no teacher in my main field which is printmaking had gone because I was hired at 24 by a major research university where its campus services gave me a head start exploring electronic arts and computers I could blend with teaching printmaking Ironically while these brought opportunities there were hidden limitations In the 1980s I gambled our home to take us on a vast sabbatical research project for the university We returned to find the school corrupt and so it ended my career Fortunately I married well My high school sweetheart Lynda stayed with me even on my wayward ventures In addition she brought two fine daughters to our lives And had it not been for her ability to restore our property my exploring would have ended forever Because when the art school closed its door others opened Everything I learned in nineteen years at the UW prepared me to continue privately By 1990 I was on cloud nine and the Internet was within my grasp These are the words from one of two volumes I illustrated with a thousand pictures What autobiography of a teaching artist s life would be complete without pictures Not only my art but my students and from collaborations with diverse artists crafts people designers and writers Plus QR codes It is for anyone who loves a good read about teaching art as I was known for in Seattle but also about an old professor s family friends art patrons and former students who made it possible It continues in Volume 2 Volume 1 takes this farmboy to the approach of the information superhighway
