photographs taken forty years ago and more recent images Ramifications of the expansion of the tourist industry at Petra in the 21st century are also considered Life in a Cave in Petra with the Bdoul 1981 1986 is therefore an important and essential volume on the archaeology and history of one of the best known ancient sites in the world     *Arts & Crafts Homes and the Revival* ,2009 Devoted to the Arts and Crafts Movement past and present this new magazine celebrates the revival of quality and craftsmanship Each issue is a portfolio of the best work in new construction restoration and interpretive design presented through intelligent writing and beautiful photographs Offering hundreds of contemporary resources it showcases the work not only of past masters but also of those whose livelihoods are made in creating well crafted homes and furnishings today The emphasis is on today s revival in architecture furniture and artisanry informed by international Arts Crafts and the early 20th century movement in America William Morris through the Bungalow era Includes historic houses essays and news design details how to articles gardens and landscape kitchens and baths Lots of expert advice and perspective for those building renovating or furnishing a home in the Arts Crafts spirit From the publisher of Old House Interiors magazine and the Design Center Sourcebook artsandcraftshomes com     **College Admissions Data Sourcebook Northeast Edition Bound 2010-11** ,2010-09     *Arts & Crafts Homes and the Revival* ,2009 Devoted to the Arts and Crafts Movement past and present this new magazine celebrates the revival of quality and craftsmanship Each issue is a portfolio of the best work in new construction restoration and interpretive design presented through intelligent writing and beautiful photographs Offering hundreds of contemporary resources it showcases the work not only of past masters but also of those whose livelihoods are made in creating well crafted homes and furnishings today The emphasis is on today s revival in architecture furniture and artisanry informed by international Arts Crafts and the early 20th century movement in America William Morris through the Bungalow era Includes historic houses essays and news design details how to articles gardens and landscape kitchens and baths Lots of expert advice and perspective for those building renovating or furnishing a home in the Arts Crafts spirit From the publisher of Old House Interiors magazine and the Design Center Sourcebook artsandcraftshomes com     *Arts & Crafts Homes and the Revival* ,2010 Devoted to the Arts and Crafts Movement past and present this new magazine celebrates the revival of quality and craftsmanship Each issue is a portfolio of the best work in new construction restoration and interpretive design presented through intelligent writing and beautiful photographs Offering hundreds of contemporary resources it showcases the work not only of past masters but also of those whose livelihoods are made in creating well crafted homes and furnishings today The emphasis is on today s revival in architecture furniture and artisanry informed by international Arts Crafts and the early 20th century movement in America William Morris through the Bungalow era Includes historic houses essays and news design details how to articles gardens and landscape kitchens and baths Lots of expert advice and perspective for those building renovating or furnishing a home in the Arts Crafts spirit From the publisher of Old House Interiors magazine and the Design Center Sourcebook artsandcraftshomes com     **Miami Home Decor** Florida

Sullivan, 2022-03-01 A new look at the interrelationship of architecture and sculpture during one of the richest periods of American modern design Alloys looks at a unique period of synergy and exchange in the postwar United States when sculpture profoundly shaped architecture and vice

versa Leading architects such as Gordon Bunshaft and Eero Saarinen turned to sculptors including Harry Bertoia Alexander Calder Richard Lippold and Isamu Noguchi to produce site determined large scale sculptures tailored for their buildings highly visible and well traversed threshold spaces The parameters of these spaces atriums lobbies plazas and entryways led to various designs like sculptural walls ceilings and screens that not only embraced new industrial materials and processes but also demonstrated art s ability to merge with lived architectural spaces Marin Sullivan argues that these sculptural commissions represent an alternate history of midcentury American art Rather than singular masterworks by lone geniuses some of the era s most notable spaces Philip Johnson s Four Seasons Restaurant in Mies van der Rohe s Seagram Building Max Abramovitz s Philharmonic Hall at Lincoln Center and Pietro Belluschi and Walter Gropius s Pan Am Building would be diminished without the collaborative efforts of architects and artists At the same time the artistic creations within these spaces could not exist anywhere else Sullivan shows that the principle of synergy provides an ideal framework to assess this pronounced relationship between sculpture and architecture She also explores the afterlives of these postwar commissions in the decades since their construction A fresh consideration of sculpture s relationship to architectural design and functionality following World War II *Alloys* highlights the affinities between the two fields and the ways their connections remain with us today
