Art Of The Andes From Chavin to Inca :

Art of the Andes Rebecca Stone-Miller,1995 *Art of the Andes* Rebecca Stone,2012 Fills a void in the genre Excellent descriptions and interpretations Latin American Antiquity **Ancient Arts of the Andes** Wendell Clark Bennett,1954 Pre Historic treasures of gold and silver intricately woven tapestries delicately painted paper thin ceramics and monumental stone carvings More than 400 priceless objects have been assembled from private and public collections in Latin America Canada and the United States for this exhibition which will present for the first time under one roof the finest examples of art produced by ancient civilizations which flourished in the Andean region from about 1200 B C until the Spanish Conquest in the 16th century Excerpt from press release see link below *Art, Nature, and Religion in the Central Andes* Mary Strong,2012-05-01 From prehistory to the present the Indigenous peoples of the Andes have used a visual symbol system that is art to express their sense of the sacred and its immanence in the natural world Many visual motifs that originated prior to the Incas still appear in Andean art today despite the onslaught of cultural disruption that native Andeans have endured over several centuries Indeed art has always been a unifying power through which Andeans maintain their spirituality pride and culture while resisting the oppression of the dominant society In this book Mary Strong takes a significantly new approach to Andean art that links prehistoric to contemporary forms through an ethnographic understanding of Indigenous Andean culture In the first part of the book she provides a broad historical survey of Andean art that explores how Andean religious concepts have been expressed in art and how artists have responded to cultural encounters and impositions ranging from invasion and conquest to international labor migration and the internet In the second part Strong looks at eight contemporary art types the scissors dance danza de tijeras home altars retablos carved gourds mates ceramics ceramica painted boards tablas weavings textiles tinware hojalateria and Huamanga stone carvings piedra de Huamanga She includes prehistoric and historic information about each art form its religious meaning the natural environment and sociopolitical processes that help to shape its expression and how it is constructed or performed by today s artists many of whom are quoted in the book **The Stone and the Thread** César Paternosto,1996-01-01 Shows that precolumbian tectonic forms especially as found in sculpture and weaving appear to be an overlooked source or anticipation of much of the art of the 20th century Second part of book deals with artifacts as American art and addresses reception of ancient tectonics in the 20th century Emphasizes intense relationship that some members of the New York School particularly Barnett Newman and Adolph Gottlieb had during 1940s with the aboriginal arts of the North American part of the hemisphere and thus the affinities between their work and the work of the older Torres Garcia in Montevideo at the other end of the continent Handbook of Latin American Studies v 58 **Ancient Art of the Andes** Wendell C. Bennett,1954 *The Chavín Controversy* Maarten Van Hoek,2011 *Ancient Art of the Andes* Wendell C. Bennett,The Museum of Modern Art (New York),1954 *Andean Art* Penny Dransart,1995 The aim of the book is to explore various facets of artistic expression

ranging temporally from four thousand years ago to the present day in the Andean regions of South America based on themes social contexts cultural expressions recontextualisation construction and meaning and the role of art in the creation and animation of Andean landscapes The various authors also move towards an archaeology anthropology or art history of visual expression that allows for an assessment of self critical and reflexive developments on the part of the people who produced the artistic works under consideration These visual worlds they created and continue to create make art in the Andes a fruitful and exciting field of study
