Climate Control Jim Zamber,2013-05 Climate Control is about just how our inner status affects our outer experiences and not only in our perceptions of them but how they do in fact through the law of attraction and repelling bring experiences into or not into manifestation Also our inner climate impresses in on and at a collective level playing a part in geographic and worldly creation Nine years ago I had a life changing experience that left me hopeless at the time in that I felt very insignificant and exposed to the mercy of something much greater than myself In that time of complete surrender to be whatever would be I was inspired to go deeper into my own being and search for some deeper connection to it all This inner journey revealed to me outwardly through many resources that we are not at the mercy of something greater but in fact we are the mercy of something greater Through the commitment to journal about this four years later my own personal endeavor serves as example that anyone can start right were there at and use their life experiences up to that point to grow into and experience life in a more desirable way "Knock, Knock" "Who's there?" "It's Me, God..."
