 is unique in that it will cover education in Papua New Guinea over the millennia Papua New Guinea s multicultural society  
 with relatively recent contact with Europe and the Middle East provides a cameo of the development of education in a  
 country with both a colonial history and a coup less transition to independence Discussion will focus on specific areas of  
 mathematics education that have been impacted by policies research circumstances and other influences with particular  
 emphasis on pressures on education in the last one and half centuries This volume will be one of the few records of this kind  
 in the education research literature as an in depth record and critique of how school mathematics has been grown in Papua
