Astolphe De Custine 1790 1857 Le Dernier Marquis:

The Misfit of the Family Michael Lucey, 2003-08-25 Examines the portrayal of sexuality in Balzac and the psychoanalytic preoccupations of his critics **The Amorous Restoration** Andrew J. Counter, 2016 When Louis XVIII returned to the throne in 1814 and again in 1815 France embarked upon a period of uneasy cohabitation between the old and the new The writers of the age who included Chateaubriand Stendhal Balzac and Mme de Duras agreed that they lived at a historical turning point a transitional moment whose outcome though still uncertain would transform the French way of life beginning with the French way of love The literary works of the Bourbon Restoration ceaselessly return to the themes of love sex and marriage partly as vital cultural questions in their own right but also as a means of critiquing the deficiencies of past regimes negotiating the politics of the present and imagining the shape of the political future In the literature of the Restoration love and politics become entwined in a mutually metaphorical embrace The Amorous Restoration the first book in English devoted to literary and cultural life under the last Bourbon kings considers this relationship in all its richness and many contradictions Long neglected as a drab historical backwater the Restoration emerges here as a vibrant era one rife with sharp cultural and political disagreements and possessed of an especially refined sense of allusion discretion and even humour Drawing on literature journalism political writing life writing and gossip The Amorous Restoration vividly recreates the erotic sensibilities of a pivotal moment in the transition from an amorous old regime to erotic and political modernity

Euro-orientalism Ezequiel Adamovsky, 2006 Drawing from a range of critical perspectives in particular postcolonial this book examines the relationship between perceptions of Russia and of Eastern Europe and the making of a Western identity It explores the ways in which the perception of certain characteristics of Russia and Eastern Europe whether real or attributed was shaped by and used for the construction of a liberal narrative of the West which eventually became dominant The focus of this inquiry is French culture from the beginning of the debate about Russia among the philosophes c 1740 to the consolidation of a professional field of Slavic studies c 1880 A wide range of writing literature travel accounts histories political tracts scientific journals and parliamentary debates is examined through the work of major authors from Montesquieu Diderot and Rousseau to Tocqueville de Maistre and Guizot from Mme de Sta l Hugo and Balzac to Dumas Michelet and Comte as well as that of many less well known figures The book also explores possible continuities between those first academic accounts of Russia and Eastern Europe and present day scholarship in Europe and the USA to show that the liberal ideological accounts constructed in the nineteenth century still to a great extent inform contemporary academic studies
