Berz, K. Makino, 2005-02-01 This volume provides an overview of the state of the art in computational accelerator physics based on papers presented at the seventh international conference at Michigan State University in October 2002. The major topics covered in this volume include particle tracking and ray tracing, transfer map methods, field computation for time-dependent Maxwell's equations and static magnetic problems as well as space charge and beam-beam effects. The book also discusses modern computational environments including parallel clusters, visualization and new programming paradigms. It is ideal for scientists and engineers working in beam or accelerator physics and related areas of applied math and computer science.

Emergency Department Compliance Manual, 2019 Edition McNew, 2019-04-23 Emergency Department Compliance Manual provides everything you need to stay in compliance with complex emergency department regulations including such topics as legal compliance questions and answers, find the legal answers you need in seconds, Joint Commission survey questions and answers, get inside guidance from colleagues who have been there, hospital accreditation standard analysis, learn about the latest Joint Commission standards as they apply to the emergency department and reference materials for emergency department compliance. The Manual offers practical tools that will help you and your department comply with emergency department related laws, regulations and accreditation standards. Because of the Joint Commission's hospital-wide function-based approach to evaluating compliance, it's difficult to know specifically what's expected of you in the ED. Emergency Department Compliance Manual includes a concise grid outlining the most recent Joint Commission standards which will help you understand your compliance responsibilities. Plus Emergency Department Compliance Manual includes sample documentation and forms that hospitals across the country have used to show compliance with legal requirements and Joint Commission standards.
