

START COMMANDS

STARTING THE ENGINE

Refer to the table of command on page 5 to know which button to press.
The system automatically adjusts ignition duration for your type of vehicle; parking lights flash once (duration: four seconds) then stay on all the time engine is running.
If more than one command is emitted, each successive start command resets runtime to the beginning, parking lights flash once to confirm command has been received and horn sounds once (programmable during installation) to let you know engine is already running.
Repeating this command will produce an audible confirmation that engine has started, which can be useful if vehicle is not in sight (configurable during installation).

IF ENGINE FAILS TO START

If your system cannot start your engine at first attempt, it will wait for a few seconds and then try again (it could try again twice depending on reason for failure to start).
After three attempts, it will shut down automatically and wait for new command (see "Start fail codes" on page 16).

UPON ENTERING YOUR VEHICLE...

Automatic transmission vehicles	Manual transmission vehicles
To avoid turning the engine off when taking place behind the steering wheel, <u>do not apply the brakes</u> until you have placed the key in the ignition and turned it to the RUN position.	To avoid turning the engine off when taking place behind the steering wheel, <u>do not apply the brakes and do not remove the parking brake</u> until you have placed the key in the ignition and turned it to the RUN position.

DO NOT TURN IGNITION KEY TO START POSITION.

ENGINE RUNTIME

Your engine will stop automatically after a preset time (See "Setting the runtime" on page 8).
Parking lights will stay on as long as engine is running.

TRIGGER INPUT

Your remote starter is equipped with a negative trigger (pulse) input.
This input can be connected to another remote control device or to an AstroStart RST-2 timer output (optional), part number 310-903-502.
If this input is connected, consult this device's manual or ask your technician which command controls the start/stop function.
The start/stop commands received on this input are ignored while the engine is running on a remote start.
All Start/Stop functions controlled by this input behave in the same way as functions controlled by remote.

Astroflex Electronics Starter Tx60a Manual

R Pring

Astroflex Electronics Starter Tx60a Manual:

Right here, we have countless ebook **Astroflex Electronics Starter Tx60a Manual** and collections to check out. We additionally manage to pay for variant types and plus type of the books to browse. The standard book, fiction, history, novel, scientific research, as without difficulty as various additional sorts of books are readily nearby here.
