## **Astrology The Speed Of Light:**

*Transcending the Speed of Light* Marc Seifer, 2008-08-13 A study of the new scientific understanding of consciousness and the mind as a fifth dimension of reality Introduces the existence of a fifth dimension one of mind an inner or hyperspace where time is transcended Shows how the barrier of the speed of light is actually a gateway demarking the fifth dimension Since the introduction of Descartes dualism in the seventeenth century the mind and the physical world have been viewed as disconnected entities Yet qualities of mind such as awareness purposeful action organization design and even decision making are present within the structure of matter and within the dimensions of space and time The space time continuum of scientists generally ignores the realm of the mind though phenomena such as imaginary numbers used by Einstein to combine space with time are concepts that only exist in the mind Marc Seifer contends that the inadequacy of four dimensional models to account for our experience of mental phenomena points to the consciousness of the mind as a higher organizing principle a fifth dimension where thoughts are as real and quantifiable as our familiar physical world He shows that because thought enables us to move backward and forward through time reflecting on the past and making plans for the future this fifth dimension of mind breaks the laws of relativity thereby transcending the speed of light His extensive study of this fifth dimension ranges from relativity and ether theory to precognition telepathy and synchronicity all from the perspective of the conscious universe *Astrology at the Speed of Light* Kapiel Raaj, 2012 **The Astrologer's Guide to Horse Racing** Gary Price, 2021-12-06 No information added at this time *Astrology* Adrian Ross Duncan, 2002-12-15 A guide to the practice of astrology for students novice astrologers and therapists interested in providing counseling and readings Astrology ascribes meaning to planetary events and assumes that the energy that moves the universe has a kind of inherent intelligence The astrologer maintains that there is a natural resonance between the evolving motion of the universe and the development of the human soul For the first time Adrian Duncan shows how to empower clients and create transformation by harnessing horoscopes Duncan has created an innovative manual that masterfully guides astrological practitioners and interpreters through every aspect of working with clients Going beyond astrology simply as a diagnostic tool Astrology Transformation Empowerment shows how to harness perception and sensory states to create positive change in one interpretive session Part 1 Setting the Scene explains how to read the client before reading their chart Body language mind reading and the elements are touched upon Part 2 The Major Players depicts specific planetary combinations and what they entail in regard to emotional responses relationships and the future Part 3 Transformation Methods teaches ways to expand awareness of the problem at hand reframe the reading expand sensory skills and discover new communications systems Throughout Duncan shares profiles and vignettes of clients that demonstrate his techniques **CS10-2 Natal Astrology: Progressing the Horoscope** C.
