The Literary Review ,2011

Connecting Literature and Science Jay A. Labinger,2021-11-18 This book presents a case for engagement between the sciences and the humanities The author a professional chemist seeks to demonstrate that the connections between those fields of intellectual activity are far more significant than anything that separates them The book combines a historical survey of the relationships between science and literature with a number of case studies that examine specific scientific episodes several drawn from the author s own research juxtaposed with a variety of literary works spanning a wide range of period and genre Dante to detective fiction War and Peace to White Teeth to elicit

their common themes The work argues for an empirical non theory based approach one that is closely analogous to connectionist models of brain development and function and that can appeal to general readers as well as to literary scholars and practicing scientists who are open to the idea that literature and science should not be compartmentalized Traumatic Narcissism Daniel Shaw,2013-09-23 In this volume Traumatic Narcissism Relational Systems of Subjugation Daniel Shaw presents a way of understanding the traumatic impact of narcissism as it is engendered developmentally and as it is enacted relationally Focusing on the dynamics of narcissism in interpersonal relations Shaw describes the relational system of what he terms the traumatizing narcissist as a system of subjugation the objectification of one person in a relationship as the means of enforcing the dominance of the subjectivity of the other Daniel Shaw illustrates the workings of this relational system of subjugation in a variety of contexts theorizing traumatic narcissism as an intergenerationally transmitted relational developmental trauma and exploring the clinician s experience working with the adult children of traumatizing narcissists He explores the relationship of cult leaders and their followers and examines how traumatic narcissism has lingered vestigially in some aspects of the psychoanalytic profession Bringing together theories of trauma and attachment intersubjectivity and complementarity and the rich clinical sensibility of the Relational Psychoanalysis tradition Shaw demonstrates how narcissism can best be understood not merely as character but as the result of the specific trauma of subjugation in which one person is required to become the object for a significant other who demands hegemonic subjectivity Traumatic Narcissism presents therapeutic clinical opportunities not only for psychoanalysts of different schools but for all mental health professionals working with a wide variety of modalities Although primarily intended for the professional psychoanalyst and psychotherapist this is also a book that therapy patients and lay readers will find highly readable and illuminating
