Blueprint Robert Plomin, 2019-07-02 A top behavioral geneticist argues DNA

inherited from our parents at conception can predict our psychological strengths and weaknesses This modern classic on genetics and nature vs nurture is one of the most direct and unapologetic takes on the topic ever written Boston Review In Blueprint behavioral geneticist Robert Plomin describes how the DNA revolution has made DNA personal by giving us the power to predict our psychological strengths and weaknesses from birth A century of genetic research shows that DNA differences inherited from our parents are the consistent lifelong sources of our psychological individuality the blueprint that makes us who we are Plomin reports that genetics explains more about the psychological differences among people than all other factors combined Nature not nurture is what makes us who we are Plomin explores the implications of these findings drawing some provocative conclusions among them that parenting styles don't really affect children's outcomes once genetics is taken into effect This book offers readers a unique insider's view of the exciting synergies that came from combining genetics and psychology

Lacan and Romanticism Daniela Garofalo, David Sigler, 2019-03-25 Draws from the work of Jacques Lacan to provide innovative readings of Romantic literature in the long nineteenth century Lacan and Romanticism uses the work of psychoanalyst Jacques Lacan to deliver progressive readings of Romanticism by examining canonical Romantic authors such as William Wordsworth Mary Shelley John Keats and Jane Austen as well as lesser known writers such as the graveyard poets and Sarah Scott The contributors develop innovative approaches to Lacanian literary studies focusing on neglected or emergent areas of Lacan's thought and approaching Lacan's best known work in unexpected ways The essay topics include the visible and seeable war the death drive nonhuman sexualities sublimation loss and mourning utopia capitalism fantasy and topology and they range from the mid eighteenth through the early decades of the nineteenth centuries The book reveals new ways of thinking about art and literature with psychoanalytic theory and suggests how theoretical approaches can contribute meaningfully to literary studies in general Reading this book may well entice the Romanticist who isn't already engaged in psychoanalytic theory to do so and the Lacanian scholar who may have concluded erroneously that Lacan's last word on Romanticism was his criticism of some well known lines from the Immortality ode to reconsider the value of returning to Romantic literature and visual culture Guinn Batten author of The Orphaned Imagination Melancholy and Commodity Culture in English Romanticism
