Paratextuality in Anglophone and Hispanophone Poems in the US Press, 1855-1901 Ayendy Bonifacio, 2024-04-30 Drawing examples from over 200 English language and Spanish language newspapers and periodicals published between January 1855 and October 1901 *Paratextuality in Anglophone and Hispanophone Poems in the US Press 1855 1901* argues that nineteenth century newspaper poems are inherently paratextual The paratextual situation of many newspaper poems their links to surrounding textual items and discourses their editorialisation through circulation the way poems were altered from newspaper to newspaper and their association and disassociation with certain celebrity bylines editors and newspaper titles enabled contemporaneous poetic value and taste that in the mid to late nineteenth century were not only sentimental Romantic and or genteel In addition to these important categories for determining a good and bad poem poetic taste and value were determined Bonifacio argues via arbitrary consequences of circulation paratextualisation typesetter error and editorial convenience

Psalms and the Use of the Critical Imagination Katherine E. Southwood,Laura Quick,Holly Morse,Jacqueline Vayntrub,2023-10-19

The contributors provide fresh insight into the context surrounding the composition and reception of the Psalms the relationships between the Psalms and of early audiences who engaged with the material Close attention is also paid to specific interpretative problems which emerge in the Psalms both linguistic and theological Consequently there is the creation of a more sophisticated historical reconstruction of how the Psalms were used originally and in subsequent periods opening up challenges and possibilities for scholars through emphasizing the need in critical Psalms scholarship for vitality and imagination

Handling Dissonance Chelle L. Stearns,2019-06-12 Music can answer questions that often confound more discursive modes of thought Music takes concepts that are all too familiar reframes these concepts and returns them to us with incisive clarity and renewed vision Unity is one of these all too familiar concepts thrown around by politicians journalists and pastors as if we all know what it means By turning to music especially musical space the relational structure of unity becomes less abstract and more tangible within our philosophy Arnold Schoenberg as an inherently musical thinker is our guide in this study of unity His reworking of musical structure dissonance and metaphysics transformed the tonal language and aesthetic landscape of twentieth century music His philosophy of compositional unity helps us to deconstruct and reconceive how unity can be understood and worked with both aesthetically and theologically This project also critiques Schoenberg s often monadic musical metaphysic by turning to Colin Gunton s conviction that the particularity and unity at the heart of God s triune being should guide all of our theological endeavors Throughout music accompanies our thinking demonstrating not only how theology can benefit the philosophy of music but also how the philosophy of music can enrich and augment theological discourse
