The Gaboye of Somaliland Elia Vitturini, 2023-07-27 The book explores the history of a minority group the Gaboye in Somaliland and using a historical ethnographic approach addresses two main issues First the analysis addresses the transformation and reproduction of the social boundary which separates an ascribed status based minority group within the society what symbolic political economic and social apparatuses have articulated the boundary and the belonging to this minority group How have these apparatuses changed Second the analysis adopts the trajectory of the minority members in the town of Hargeysa as a perspective on the history of north western Somali society from the point of view of an ascribed status based minority group what can we see of the social economic and political changes which occurred during the decades of slow colonial penetration into the area of urban expansion of postcolonial state consolidation and collapse civil war mass displacement peace building and the contemporary waves of diasporisation of this society

Catalog of the Melville J. Herskovits Library of African Studies, Northwestern University Library (Evanston, Illinois) and Africana in Selected Libraries Melville J. Herskovits Library of African Studies, 1972 Reproduction in an African City Today Rogers Hansine, 2021 Sub Saharan Africa is considered the last region in the world where women still give birth to presumably too many children However within large cities such as Maputo the capital of Mozambique the average number of children per woman varies greatly What is extraordinary as this book shows is that childbearing is a social action Parenting allows one to consider different action alternatives or rather opportunities to act These actions are not the same for everyone in different contexts The book highlights that macro level socio demographic changes namely intraurban reproductive disparities are brought up by micro level individual actions Tanzen als Widerstand Kristina Stein-Hinrichsen, 2022-04-04 Strike Dance Rise lautet der Appell und das Versprechen der feministischen Kampagne One Billion Rising Zum ersten Mal in der Geschichte der Demokratien stehen weibliche Körper und die ästhetische Bewegungspraxis Tanz als Mittel und Botschaft im Zentrum eines transnationalen zivilgesellschaftlichen Protests Kristina Stein-Hinrichsen erforscht in ihrer kulturvergleichenden Studie ob und unter welchen Bedingungen Tanz ein wirksames Medium der Demonstration sein kann Dabei folgt sie einem performativen Verständnis von Öffentlichkeit Geschlecht und Choreographie und erweitert die Forschung zu den globalen sozialen Bewegungen um die körperliche Dimension von Protest

Navigating Socialist Encounters Eric Burton, Anne Dietrich, Immanuel Harisch, Marcia Schenck, 2021-06-08 This edited volume firmly places African history into global history by highlighting connections between African and East German actors and institutions during the Cold War With a special focus on negotiations and African influences on East Germany and vice

versa the volume sheds light on personal and institutional agency cultural cross fertilization migration development and solidarity **Developing Heritage - Developing Countries** Marie Huber,2020-11-23 The history of development has paid only little attention to cultural projects This book looks at the development politics that shaped the UNESCO World Heritage programme with a case study of Ethiopian World Heritage sites from the 1960s to the 1980s In a large scale conservation and tourism planning project selected sites were set up and promoted as images of the Ethiopian nation This story serves to illustrate UNESCO s role in constructing a useful past in many African countries engaged in the process of nation building UNESCO experts and Ethiopian elites had a shared interest in producing a portfolio of antiquities and national parks to underwrite Ethiopia s imperial claims to regional hegemony with ancient history The key findings of this book highlight a continuity in Ethiopian history despite the political ruptures caused by the 1974 revolution and UNESCO s transformation from knowledge producer to actual provider of development policies The particular focus on the bureaucratic and political practices of heritage bridges a gap between cultural heritage studies and the history of international organisations The result is a first study of the global discourse on heritage as it emerged in the 1960s development decade **Aquatic Biomes**

Landscape Resilience Catrin Schmidt,2021-10-25 This book explains what makes landscapes resilient Why are some landscapes able to recover quickly from disruptive events or crises while others are completely thrown off balance for the foreseeable future The author sets out in search of the influencing factors and conditional structures of landscape resilience and not only evaluates the current state of the art but also explores landscapes around the globe that could not be more contrasting from arid agricultural landscapes to boreal forest landscapes from atolls to saline landscapes from terraced landscapes to cities Just as diverse as the landscape types are the factors considered that can put landscapes under stress However diverse the case studies are in detail their fascinating mosaic shows at the same time that there are overarching principles that can be used to increase the resilience of landscapes in a targeted way so that

landscapes emerge from crises strengthened rather than weakened This book is a translation of the original German 1st edition *Landschaftliche Resilienz* by Catrin Schmidt published by Springer Verlag GmbH Germany part of Springer Nature in 2020 The translation was done with the help of artificial intelligence machine translation by the service DeepL.com A subsequent human revision was done primarily in terms of content so that the book will read stylistically differently from a conventional translation Springer Nature works continuously to further the development of tools for the production of books and on the related technologies to support the authors

,2022-11-30 *Opera Village Africa* a participatory art experiment by the late German multimedia artist Christoph Schlingensief serves as a testing ground for a critical interrogation of Richard Wagner s notion of the Gesamtkunstwerk Sarah Hegenbart traces the path from Wagner s introduction of the Gesamtkunstwerk in Bayreuth to Schlingensief s attempt to charge the idea of the total artwork with new meaning by transposing it to the West African country Burkina Faso Schlingensief developed *Opera Village* in collaboration with the world renowned architect Francis K r This final project of Schlingensief is inspired by and illuminates the diverse themes that informed his artistic practice including coming to terms with the German past anti-Semitism critical race theory and questions of postcolonial self criticism From Bayreuth to Burkina Faso introduces the notion of the postcolonial Gesamtkunstwerk to disrupt the Eurocentric perspective on art history exploring how the socio political force of a postcolonial Gesamtkunstwerk could affect processes of transcultural identity construction It reveals how Schlingensief translocated the Wagnerian concept to Burkina Faso to address German colonial history and engage with it from the perspective of multidirectional memory cultures

Racializing Caste Thiago P. Barbosa,2025-04-21 The book analyses how racial knowledge has circulated in transnational entanglements particularly between Germany and India into the research on human variation in India racializing the understanding of caste and ethnicity It focuses on the legacy of Irawati Karve 1905 1970 a Indian anthropologist trained at the Kaiser Wilhelm Institute for Anthropology Eugenics and Human Heredity in Berlin Germany 1927 1930 and a prominent scientist in post colonial India Besides a historical analysis of Karve s adaptation of racial approaches to the study of Indian castes the book applies material semiotic and ethnographic lenses to examine how her work is taken up today in anthropology and population genetics By showing how transnational and transcolonial entanglements in race science shape knowledge on human diversity in India the book offers novel insights to discussions in anthropology STS and global history including the racialization of difference colonial legacies and post colonial sovereignty in science It contributes to a better understanding of the co constitution of politics and sciences of human diversity and it argues for a closer attention to inequalities as a way to de link from the legacies of scientific racism

A History of Victims of Crime Stephen Strauss-Walsh,2023-05-19 This book examines the evolution of the contemporary crime victim s procedural place within modern Western societies Taking the history of the Irish crime victim as a case study the work charts the place of victims within criminal justice over time This evolves from the expansive latitude that they had during the eighteenth century to their major relegation to witness and informer in the nineteenth and back to a more contemporary recapturing of some of their previous centrality The book also studies what this has meant for the position of suspects and offenders as well as the population more generally Therefore some analysis is devoted to examining its impact on an offender s right to fair trial and social forms It is held that the modern crime victim has transcended its position of marginality This happened not only in law but as the consequence of the victim s new role as a key sociopolitical stakeholder This work flags the importance of victim rights conferrals and the social transformations that engendered such trends In this

way victim re emergence is evidenced as being not just a legal change but a consequence of several more recent sociocultural transformations in our societies The book will be of interest to researchers academics and policy makers in criminal law human rights law criminology and legal history

Origin and Early Evolution of Amniotes Jörg

Fröbisch, Mark Joseph MacDougall, Michel Laurin, Sean P. Modesto, Robert R. Reisz, 2025-09-08 Amniotes comprise all fully terrestrial vertebrates and include extant squamates turtles crocodiles birds and mammals The origin of amniotes tightly linked to the amniotic egg as a key innovation represents a major transition in the evolutionary history of tetrapods Amniotes first appeared in the fossil record about 318 million years ago and their early evolution diversification ecology and phylogenetic relationships have received considerable and increasing interest and research attention over the past decades Recently several new hypotheses regarding early amniote interrelationships have been proposed and it is now apparent that the origin and early evolution of Amniota is not as clear as was previously thought In order to better understand early amniote evolution and test existing hypotheses it is critical to continue expanding upon past work with the addition of new data and application of modern technologies and approaches

Oxford Handbook of Transitional Justice ,2025-08-15

The Oxford Handbook of Transitional Justice is an authoritative guide to the rapidly growing domain of transitional justice the practices and processes of reckoning pursued in the aftermath of historic injustice Since the neologism s coining in the late 1990s transitional justice has become one of the 21st century s most influential practices of international humanitarianism However transitional justice projects often conceal the very violence they are intended to address or even inflict further violence on victims of atrocities Across 48 genre bending chapters the Handbook explores articulates and advances a multifaceted critique of transitional justice Ranging innovatively across space and time it interrogates the nature and legacies of the justice cascade that the prosecution of international crimes is said to have inspired An interdisciplinary cast of leading scholars questions the meaning and efficacy of transitional justice s modalities which range from archives to courts from memorials to reparations In so doing this volume s authors critically challenge the panglossian orthodoxies that have accumulated and ossified around efforts to come to terms with violent pasts from colonialism to genocide This global endeavor is not one of tear down however Rather it points toward a reimaged project that is more clear eyed about the promises of transitional justice and its inherent limits A definitive work on the subject The Oxford Handbook of Transitional Justice is essential reading for students scholars and practitioners interested in practices of reckoning
