After the Smoke Clears Mark Allman,2010

After the Smoke Clears Mark J. Allman,Tobias Winright,2022-07-21

While most studies of just war focus on the rationale for going to war and the conduct of the war this important book examines the period after the conflict What must be done to restore justice In the words of the authors Victory is declared by presidents and other leaders yet all too often no just peace is to be found in the wake of today s conflicts After the smoke clears the powers that be may declare mission accomplished when as Ezekiel long ago said there really is no peace

The Church of England and the Second World

War John D. Alexander,2025-08-28 In The Church of England and the Second World War John D Alexander analyses how historic Christian ethical traditions influenced the Church of England s contributions to British pre war and wartime public policy debates These traditions include just war holy war pacifism and Christian realism as deployed by such diverse Anglican figures as Cosmo Gordon Lang William Temple Herbert Hensley Henson George Bell Cyril Forster Garbett Charles Raven Percy Hartill Evelyn Underhill Vera Brittain and James Parkes Additional themes include war as divine judgement humanitarian intervention and Church of England responses to the Holocaust As a case study in the application of Christian ethical traditions this book makes vital connections between Anglican studies international relations theory and the diplomatic military and humanitarian challenges of the mid twentieth century

The Business of War James McCarty,Matthew Tapie,Justin Bronson Barringer,2020-10-01 The Business of War incisively interrogates the development and contemporary implications of the military industrial complex It exposes the moral dangers of life in neoliberal economies dependent upon war making for their growth and brings the Christian tradition s abundance of resources into conversation with this phenomenon In doing so the authors invite us to rethink the moral possibilities of Christian life in the present day with an eye toward faithful resistance to the business of war and its influence in every aspect of our lives In combining

biblical historical theological and ethical analyses of the business of war the authors invite us to better understand it as a new moral problem that demands a new faithful response With contributions from Pamela Brubaker Stan Goff Christina McRorie Logan Mehl Laituri Kara Slade Won Chul Shin David Swartz Jonathan Tran Myles Werntz Matthew Whelan Tobia Winright **Environmental Protection and Transitions from Conflict to Peace** Carsten Stahn,Jennifer S.

Easterday,Jens Iverson,2017 This book examines the protection of the environment in post conflict societies with regard both to the maintenance of natural ecosystems and to the function of environmental protection in the peace building process addressing the strengths and weaknesses of different bodies of law *Justice After War* David Chiwon Kwon,2023-05-12

Justice After War is aimed especially to both undergraduate and graduate students as well as the general audience who want to understand the significance of a recent development within the just war tradition namely the increasing attention given to the category of jus post bellum postwar justice and peace While examining the interrelated challenges of moral and social norms in both political and legal domains as well as church practices this work proposes an innovative methodology for linking theology ethics and social science so that the ideal and the real can inform each other in the ethics of war and peacebuilding The main task of this project then is to identify what the author views as three key themes of jus post bellum and three practices that are essential to implementing jus post bellum immediately after a war just policing just punishment and just political participation David Kwon endeavors to challenge the view of those who suggest that reconciliation mainly political reconciliation is the foremost ambition of jus post bellum Instead he attempts to justify the proposition that achieving just policing just punishment and just political participation are essential to building a just peace a peace in which the fundamental characteristic must be human security It thus demonstrates that human security is an oft neglected theme in the recent discourse of moral theologians and that a more balanced understanding of jus post bellum will direct attention to the elements composing human security in a postwar context **Just Peace After Conflict** Stahn Carsten [VNV],Jens

Iverson,Rafael Braga da Silva,2020 As contemporary studies have increasingly viewed just post bellum to the concept of peace or the law of peace so opinions concerning what a just peace could look like have diverged Is it merely an elusive ideal Or is it predominantly procedural justice Is it dependent on concessions and compromise In this volume the third output of a major research project on Jus Post Bellum Carsten Stahn Jens Iverson and Jennifer Easterday bring together a team of experts to explore the issues surrounding a just peace what it is composed of and how it makes itself felt in the modern world concluding that a just peace is not only related to form and *Serve and Protect* Tobias Winright,2020-11-13 This collection of essays on policing and the use of force while written over the course of the last twenty five years remains relevant and timely Although issues in policing and questions about excessive force and brutality have been addressed by criminologists sociologists philosophers and criminal justice ethicists only a handful of theological ethicists treat this pressing matter While the Christian moral tradition has a voluminous record of theological attention to violence and nonviolence war and peace

there is a dearth of references to policing And most considerations of criminal justice issues by Christians and their churches concentrate on prison reform or abolition and the death penalty but not policing These essays authored by a theological ethicist possessing professional experience in law enforcement seek to fill this curious gap They offer a framework for moral reasoning concerning the justification for police use of force and the just application of such force and they propose just policing as a model that is consonant with promoting a just peace in communities and society In addition they explore the implications of such an approach for wider international questions about just war terrorism the responsibility to protect and post war justice

Can War Be Just In The 21st Century? Winright, Tobias ,Johnston, Laurie,2015-12-01 *War Is Never Just* David Swanson,2018-04-03 Swanson builds a case that the time has come to set behind us the idea that a war can ever be just This critique of Just War theory finds the criteria such theories use to be either unmeasurable unachievable or amoral and the perspective taken too narrow This book argues that belief in the possibility of a just war does tremendous damage by facilitating enormous investment in war preparations which strips resources from human and environmental needs while creating momentum for numerous unjust wars

Jus Post Bellum Carsten Stahn,Jennifer S. Easterday,Jens Iverson,2014-02 Jus post bellum is the body of international legal norms and rules of international law that applies to a post conflict situation as it moves to a status of peace This book provides a detailed legal analysis of all aspects of jus post bellum and uses case studies to show its relevance to the reality of situations on the ground

Voting and Faithfulness Cafardi, Nicholas P.,2020 Fifteen essays aimed at voters on a variety of topics such as faithful citizenship how Catholics perceive and talk about issues such as war life issues character issues and how our bishops teach

Choosing Peace Dennis, Marie ,2018 Contributions by leading peacemakers such as Lisa Sowle Cahill Terrence J Rynne John Dear and Ken Utican Rose Marie Berger and Maria J Stephan advance the conversation about the practice of nonviolence in a violent world Jesus and nonviolence traditional Catholic teaching on nonviolence and reflections on the future of Catholic teaching The book concludes with Pope Francis s historic Message for World Peace Day in 2017

Who Would Jesus Kill? Mark Allman,2008 In *Who Would Jesus Kill War Peace and the Christian Tradition* Dr Mark J Allman asks a provocative timely and timeless question Readable and thought provoking *Who Would Jesus Kill* Provides an overview of approaches to war and peace within the Christian tradition The author invites students to reflect on their own views as he examines in detail the topics of holy war just war and pacifism An appendix further explores the issues of war and peace from Jewish and Muslim perspectives Provided by publisher

Doing Christian Ethics from the Margins Miguel A. De La Torre,2014-04-30 Miguel De La Torre opens up Christian ethics to the rich diversity found among those who are often excluded from academic and Eurocentric

ethical considerations This book seeks to help students realize that because the gospel message itself was proclaimed to the marginalized peoples of Judea the people who occupy the same disenfranchised spaces in our contemporary cultures are the ones who hold the interpretive key to understanding that gospel message The binding effects of power and privilege institutional or not can be overcome by a justice based ethics that avails itself of the perspectives and experiences of those on the margins Provided by publisher **Catholic Bioethics and Social Justice** M. Therese Lysaught, Michael

McCarthy, 2018-11-16 Catholic health care is one of the key places where the church lives Catholic social teaching CST Yet the individualistic methodology of Catholic bioethics inherited from the manualist tradition has yet to incorporate this critical component of the Catholic moral tradition Informed by the places where Catholic health care intersects with the diverse societal injustices embodied in the patients it encounters this book brings the lens of CST to bear on Catholic health care illuminating a new spectrum of ethical issues and practical recommendations from social determinants of health immigration diversity and disparities behavioral health gender questioning patients and environmental and global health issues

International Law and Transition to Peace in Colombia César Rojas-Orozco, 2021-07-05 In *International Law and Transition to Peace in Colombia* César Rojas Orozco analyses the role of international law in transition from armed conflict to peace by using the analytical framework of jus post bellum and Colombia as a case study While contemporary attention to jus post bellum has focused on its theoretical development and regarding international warfare this book is the first work to comprehensively assess the concept in practice and in the context of a non international armed conflict Discussing the creative formulas adopted in Colombia to conciliate international legal requirements and the practical needs of peace the book offers concrete elements to understand the concept of jus post bellum as a framework to guide other transitions around the world Violence, Transformation, and The Sacred: "They shall be called Children of God" Margaret Pfeil and Tobias L.
