After You're Gone Future Proofing Your Genealogy Research:

The Genealogy Do-Over Workbook Thomas MacEntee, 2016-01-05 Back in December 2014 I made a big announcement online and in social media Genealogy and I are parting ways Done Finished Game over Have you ever said to yourself That s it I ve had it and it just isn t worth it anymore Well have you Sort of like the character Howard Beale in the movie Network when he says live on air I m mad as hell and I m not going to take it anymore By the end of 2014 after more than 25 years of researching my own family history that is how I felt My Past Genealogy Research Frustrates Me While many who read my post thought that I was leaving the genealogy community or closing down my genealogy business I had to clarify what I meant by leaving Starting in 2015 I planned on setting my 20 years of genealogy research aside and starting over From scratch Seriously How many times have you thought about doing the same thing Did you start your research the same way I did by just collecting names grabbing stuff from other online trees or pasting text into your genealogy software Lately has the prospect of going back and citing sources or proving facts and evidence brought you down and ruined your genealogy buzz Do you throw up your hands and say I give up only to return to the same review and edit process days or weeks later If you are like me you need a genealogy makeover Better yet a Genealogy Do Over That is what I decided to call the journey upon which I embarked in early 2015 Now I want you to come along Genealogy Do Over A New Journey of Genealogical Discovery Here is the short summary of The Genealogy Do Over I set aside everything related to my genealogy research including notebooks papers and even digitized files and my genealogy database files and START OVER I m hitting the reset button I m allowing myself to have a do over certain items such as vital records ordered and paid for or research gathered on long distance trips can be retained Since I started my initial research much has changed in the areas of genealogy research methodology and education I now realize the need to collect facts and track them properly including the use of source citations I now understand the process of analyzing evidence and proving facts to reach a conclusion In essence I know a lot more about the process of genealogical research and I want to put it to use This is not to say that I have not been following proven guidelines when it comes to finding family history For my research clients mostly pro bono I actually employ all the methods advocated by many in the genealogy community However when it comes to my own research from years ago I am not walking the walk I have just been talking the talk It is not always easy to walk backwards and review every bit of information gathered over the years Instead I wanted to do more than re walk a trodden path I wanted to head out from the same starting point and see where the journey took me I knew I would have access to better tools better knowledge and be better equipped for each twist and turn Now I encourage you to join me on this journey The Genealogy Do Over journey is constructed of 12 mileposts or journey markers that are laid out over one year You can choose to pace yourself differently You can even decide to drop some of the less important tasks and add your own Do whatever it takes to ensure that you are on a firm footing to finding your ancestors
