Against The Market Political Economy Market Socialism And The Marxist Critique:

Against the Market David McNally, 1993-12-17 In this innovative book David McNally develops a powerful critique of market socialism by tracing it back to its roots in early political economy. He ranges from Adam Smith's attempt to reconcile moral philosophy with market economics to Malthus's reformulation of Smith's political economy which made it possible to justify poverty as a moral necessity. Smith's economic theory was also the source of an attempt to construct a critique of capitalism derived from his conception of free and equal exchange governed by natural price. This Smithian forerunner of today's market socialism sought to reform the market without abolishing the social relations on which it was based. McNally explores this tradition sympathetically but exposes its fatal flaws. The book concludes with an incisive consideration of efforts by writers such as Alec Nove to construct a feasible model of market socialism. McNally shows these efforts are still plagued by the failure of early Smithian socialism to come to grips with the social foundations of the market: the commodification of labor power which is the key to market regulation of the economy. The results he argues are neither socialist nor workable.

New Capitalism? Kevin Doogan, 2013-08-26 In this stimulating and highly original work Kevin Doogan looks at contemporary social transformation through the lens of the labour market. Major themes of the day: globalization, technological change and the new economy, the pension and demographic timebombs, flexibility and traditional employment are all subject to critical scrutiny. We are often told that a new global economy has emerged which has transformed our lives. It is argued that the pace of technological change, the mobility of multinational capital and the privatization of the welfare state have combined to create a more precarious world. Companies are outsourcing jobs, are migrating to China and India and a job for life is said to be a thing of the past. The so-called new capitalism is said to be the result of these profound changes. Kevin Doogan takes issue with these widely accepted ideas and subjects the transformation of work to detailed examination through a comprehensive analysis of developments in Europe and North America. He argues that precariousness is not a natural consequence of this fast-changing world; rather, current insecurities are manufactured, emanating from neoliberal policy and the greater exposure of the economy to market forces. *New Capitalism: The Transformation of Work* is sure to stimulate academic debate. Kevin Doogan's account will appeal not just to scholars but also to upper-level students across the social sciences, including the sociology of work, industrial relations, globalization, economics, social policy and business studies.

Marxism, Modernity and Postcolonial Studies Crystal Bartolovich, Neil Lazarus, 2002-07-11 At a time when even much of the political left seems to believe that transnational capitalism is here to stay, Marxism, Modernity and Postcolonial Studies refuses to accept the inevitability of the so-called New World Order. By giving substantial attention to topics such as globalisation, racism and modernity, it provides a specifically Marxist intervention into postcolonial and cultural studies. An international team of contributors locate a common ground of issues engaging Marxist and postcolonial critics alike. Arguing that Marxism is not the inflexible monolithic irrelevance some critics assume it to be, this collection aims to open avenues of

debate especially on the crucial concept of modernity which have been closed off by the widespread neglect of Marxist analysis in postcolonial studies Politically focused at times polemical and always provocative this book is a major contribution to contemporary debates on literary theory cultural studies and the definition of postcolonial studies **Capitalism, For and Against** Ann E. Cudd, Nancy Holmstrom, 2011-01-06 Political philosophy and feminist theory have rarely examined in detail how capitalism affects the lives of women Ann Cudd and Nancy Holmstrom take up opposing sides of the issue debating whether capitalism is valuable as an ideal and whether as an actually existing economic system it is good for women In a discussion covering a broad range of social and economic issues including unequal pay industrial reforms and sweatshops they examine how these and other issues relate to women and how effectively to analyze what constitutes capitalism and women s interests Each author also responds to the opposing arguments providing a thorough debate of the topics covered The resulting volume will interest a wide range of readers in philosophy political theory women s studies and global affairs Keywords for Radicals Kelly Fritsch, Clare O'Connor, AK Thompson, 2016-03-27 An extraordinary volume that provides nothing less than a detailed cognitive mapping of the terrain for everyone who wants to engage in radical politics Slavoj i ek author of *Living in the End Times* *Keywords for Radicals* recognizes that language is both a weapon and terrain of struggle and that all of us committed to changing our social and material reality to making a world justice rich and oppression free cannot drop words such as democracy occupation colonialism race sovereignty or love without a fight Robin D G Kelley author of *Freedom Dreams The Black Radical Imagination* A primer for a new era of political protest Jack Halberstam author of *Female Masculinity* This keywords upgrade puts powerful weapons into revolutionaries hands Unexpected entries expand into new terrain Indispensable Jodi Dean author of *The Communist Horizon* In *Keywords* 1976 Raymond Williams devised a vocabulary that reflected the vast social transformations of the post war period He revealed how these transformations could be grasped by investigating changes in word usage and meaning *Keywords for Radicals* part homage part development asks What vocabulary might illuminate the social transformations marking our own contested present How do these words define the imaginary of today s radical left With insights from dozens of scholars and troublemakers *Keywords for Radicals* explores the words that shape our political landscape Each entry highlights a term s contested variations traces its evolving usage and speculates about what its historical mutations can tell us More than a glossary this is a crucial study of the power of language and the social contradictions hidden within it **Time, Capitalism and Alienation** Jonathan Martineau, 2015-05-12 In *Time Capitalism and Alienation* A Socio Historical Inquiry into the Making of Modern Time Jonathan Martineau offers an account of the histories of social time in Europe from the innovation of the clock around 1300 to the making of World Standard Time around the turn of the twentieth century Approaching time as a social phenomenon traversed by various power and property relations this work provides a socio theoretical and historical analysis of the relationship between clock time and capitalist social relations problematizing the rise to hegemony of a clock

Alternatives to Privatization David A. McDonald,Greg Ruiters,2012-04-23 There is a vast literature for and against privatizing public services Those who are against privatization are often confronted with the objection that they present no alternative This book takes up that challenge by establishing theoretical models for what does and does not constitute an alternative to privatization and what might make them successful backed up by a comprehensive set of empirical data on public services initiatives in over 40 countries This is the first such global survey of its kind providing a rigorous and robust platform for evaluating different alternatives and allowing for comparisons across regions and sectors The book helps to conceptualize and evaluate what has become an important and widespread movement for better public services in the global South The contributors explore historical existing and proposed non commercialized alternatives for primary health water sanitation and electricity The objectives of the research have been to develop conceptual and methodological frameworks for identifying and analyzing alternatives to privatization and testing these models against actually existing alternatives on the ground in Asia Africa and Latin America Information of this type is urgently required for practitioners and analysts both of whom are seeking reliable knowledge on what kind of public models work how transferable they are from one place to another and what their main strengths and weaknesses are

Marx's Capital: An Unfinishable Project? ,2018-04-10 For almost 150 years scholars have been debating how to interpret Marx s seminal work Capital while they had access to just some of Marx s economic manuscripts This changed in 2013 with the publication of all the known economic writings of Marx and Engels in the Marx Engels Gesamtausgabe MEGA One can now reconstruct the lines of intellectual development and one can also explore in detail how Friedrich Engels went about compiling volumes II and III of Capital from the vast legacy of manuscripts that Marx left behind after his death in 1883 It should be possible now to develop a more comprehensive and accurate picture of Marx as an economic theoretician This volume of essays aims to initiate this process Contributors are Christopher J Arthur Matthias Bohlender Timm Gra mann Jorge Grespan Gerald Hubmann Heinz D Kurz Marcel van der Linden Kenji Mori Fred Moseley Lucia Pradella Geert Reuten Regina Roth and Carl Erich Vollgraf

The Origins and Dynamics of Inequality Jon D. Wisman,2022 In The Origins and Dynamics of Inequality Jon Wisman provides a re interpretation of economic history and society He argues that the struggle over income wealth and privilege inequality has been the principal defining issue in human history and provides a novel framework for understanding inequality today

Apostles of Inequality Jim Handy,2022-03-31 Between 1760 and 1860 the English countryside was subject to constant attempts at agricultural improvement Most often these meant depriving cottagers and rural workers of access to land they could cultivate despite evidence that they were the most productive farmers in a country constantly short of food Drawing from a wide range of contemporary sources Apostles of Inequality argues that such attempts driven by a flawed faith in the wonders of capital did little to increase agricultural productivity and instead led to a century of increasing impoverishment in rural England Jim Handy rejects the assertions about the benefits that accompanied the transition to improved agriculture and details the abundant evidence for the efficiency of smallholder peasant agriculture He traces the development of both economic theory and government policy through the work of agricultural improver Arthur Young 1741 1820 government advisor Nassau William Senior 1790 1864 and the editors and writers of the Economist as well as Adam Smith and Thomas Robert Malthus Apostles of Inequality demonstrates how a fascination with capital promoted by political economy and farmers desires to have a labour force completely dependent on wage labour fostered widespread destitution in rural England for over a century

Land, Value, Community Wayne Ouderkirk,Jim Hill,2012-02-01 Land Value Community provides an in depth critical study of the theories of J Baird Callicott one of the world s foremost environmental philosophers

An international group of scholars representing philosophy ecology ecofeminism Native American studies political science and religion studies critically assesses Callicott's contributions to environmental ethics and philosophy and presents alternative perspectives from their own work Each section consists of several authors focusing on one aspect of Callicott's thought raising questions not only for Callicott but also for anyone affected by environmental issues A noteworthy feature of the book is Callicott's own response to his critics This volume allows readers to explore multiple avenues in their search for answers to the significant philosophical questions raised by environmental problems *Socialist Practice* Victor Wallis, 2020-02-18 The level of popular discontent in the United States as elsewhere has shown a dramatic increase in recent years but has yet to crystallize into a cohesive anti capitalist political force *Socialist Practice* aims to contribute to a popular movement for socialism It does so by 1 revisiting under present conditions longstanding questions of Marxist theory and revolutionary history and 2 illustrating the range of issues activities and forms of expression that can both inform and be informed by a Marxist approach Essays spanning a range of national experiences address the crying need to generate a society wide awakening grounded in purposeful discussion among all those the vast majority whose interests are ill served by continuation of the status quo Democracy, States, and the Struggle for Social Justice Heather D. Gautney, Neil Smith, Omar Dahbour, Ashley Dawson, 2009-04-24 Using understandable and interesting case studies *Democracy States and the Struggle for Social Justice* analyzes the impact of neoliberal globalization on governance and explores the new forms of participatory democracy that have emerged from the global justice movement **Bodies of Meaning** David McNally, 2001-01-01 Challenges postmodernist theories of language and politics which detach language from human bodies and their material practices **Global Slump** David McNally, 2010-12-09 *Global Slump* analyzes the global financial meltdown as the first systemic crisis of the neoliberal stage of capitalism It argues that far from having ended the crisis has ushered in a whole period of worldwide economic and political turbulence In developing an account of the crisis as rooted in fundamental features of capitalism *Global Slump* challenges the view that its source lies in financial deregulation The book locates the recent meltdown in the intense economic restructuring that marked the recessions of the mid 1970s and early 1980s Through this lens it highlights the emergence of new patterns of world inequality and new centers of accumulation particularly in East Asia and the profound economic instabilities these produced *Global Slump* offers an original account of the financialization of the world economy during this period and explores the intricate connections between international financial markets and new forms of debt and dispossession particularly in the Global South Analyzing the massive intervention of the world's central banks to stave off another Great Depression *Global Slump* shows that while averting a complete meltdown this intervention also laid the basis for recurring crises for poor and working class people job loss increased poverty and inequality and deep cuts to social programs The book takes a global view of these processes exposing the damage inflicted on countries in the Global South as well as the intensification of racism and attacks on migrant workers

At the same time Global Slump also traces new patterns of social and political resistance from housing activism and education struggles to mass strikes and protests in Martinique Guadeloupe France and Puerto Rico as indicators of the potential for building anti capitalist opposition to the damage that neoliberal capitalism is inflicting on the lives of millions

Political Economy and Soviet Socialism (Routledge Revivals) Alec Nove, 2013-02-01 First published in 1979 Political Economy and Soviet Socialism is an integrated selection of papers written over the past 12 years of Russian history which offers a unique insight into some important and controversial issues Professor Nove discusses the ideas of some of the leaders of the Russian revolution Lenin Trotsky and Bukharin the political economy of socialism and the problems of the contemporary USSR The author addresses the role of traditional Russian ideas in shaping the Soviet Union's social structure and the conceptual problems involved in defining its ruling stratum whether or not it is a class He also considers the criteria by which it is reasonable to judge Soviet reality the performance and prospects of agriculture in communist ruled Europe the ability of the Eastern bloc to tackle problems of inflation and the obstacles to economic reform Looking at the important and original developments of economic thought in the USSR and Eastern Europe Professor Nove dissects the ideas of the new leftists concerning the role of market forces under a feasible socialism These papers offer essential reading for students of politics economics and comparative social structure

Feudal America Vladimir Shlapentokh, Joshua Woods, 2011-01-01 Do Americans live in a liberal capitalist society where evenhanded competition rules the day or a society in which big money private security and personal relations determine key social outcomes Vladimir Shlapentokh and Joshua Woods argue that the answer to these questions cannot be found among the conventional models used to describe the nation Offering a new analytical tool the authors present a provocative explanation of the nature of contemporary society by comparing its essential characteristics to those of medieval European societies Their feudal model emphasizes five elements the weakness of the state and its inability to protect its territory guarantee the security of its citizens and enforce laws conflicts and collusions between and within organizations that involve corruption and other forms of illegal or semilegal actions the dominance of personal relations in political and economic life the prevalence of an elitist ideology and the use of private agents and organizations for the provision of safety and security Feudal America urges readers to suspend their forward thinking and futurist orientations question linear notions of social and historical progression and look for explanations of contemporary social problems in medieval European history
