All Afloat William Wood, 2018-03-21 Excerpt from All Afloat A Chronicle of Craft and Waterways Canada is the child of the sea Her infancy was cradled by her waterways and the life blood of her youth was drawn from oceans lakes and rivers No other land of equal area has ever been so intimately bound up with the changing fortunes of all its different waters coast and inland salt and fresh The St Lawrence basin by itself is a thing to marvel at for its mere stupendous size alone Its mouth and estuary are both so vast that their salt waters far exceed those of all other river systems put together Its tide runs farther in from the Atlantic than any other tide from this or any other ocean And its Great Lakes are appropriately known by their proud name because they contain more fresh water than all the world beside Size for size this one river system is so pre eminently first in the sum of these three attributes that there is no competing second to be found elsewhere About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Afloat and Ashore on the Mediterranean (Classic Reprint) Lee Meriwether, 2015-07-13 Excerpt from *Afloat and Ashore on the Mediterranean* In his History of Civilization Buckle speaks rather disparagingly of the mere narrator of events remarking that for every original thinker there are a dozen trained observers Having small claim to being even a trained observer it would be no easy matter to defend this book before Buckle to the general reader however I shall feel that no apology is due should the perusal of the adventures herein related afford a tithe of the pleasure experienced in the adventures themselves The manner in which the trip was taken is not without novelty nor are all the places described visited by summer tourists to Europe No railroads reach the extreme southwest coast of Italy some of the islands of the Aegean are also difficult of access except in private yachts These facts embolden me to hope that the chapters of this book if twice told tales to the few may not be devoid of interest to the many who even though experienced travellers may perhaps have failed to visit the out of the way places in the Mediterranean reached by the writer in his little craft the Principe Farnese While Commissioner of Labor Statistics for the State of Missouri I was directed by a resolution adopted by the House of Representatives to investigate the subject of convict labor About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in
