THE TEACHER'S COMPANION TO PREPARING FOR DISASTER

After The Crisis Using Storybooks To Help Children Cope

**Cynthia Franklin, Mary Beth
Harris, Paula Allen-Meares**

After The Crisis Using Storybooks To Help Children Cope:

After the Crisis Cathy Grace, 2010 When a crisis shakes a child's life it is often up to teachers to recognize and identify signs that the child is suffering from continuing stress and to help parents make appropriate decisions regarding next steps. Although most teachers cannot provide therapy to children under traumatic stress they already have the tools they need to help children cope. Storybooks: The literature-based activities in *After the Crisis* help children who have been through a trauma. With activities and exercises that can be used in conjunction with 50 children's books, teachers can use the discussion starters, writing activities, and art activities in *After the Crisis* to promote children's ability to cope and heal. *After the Crisis* addresses numerous crises that can affect a child: Earthquakes, Epidemics and mass casualty incidents, Floods, Hurricanes, Tornadoes and major storms, Shelter experiences, Volcano eruptions, Death of a loved one. *After the Crisis* is the companion book to *Preparing for Disaster: What Every Early Childhood Director Needs to Know*. **The Disaster Planning Handbook for Libraries** Mary Grace Flaherty, 2021-10-12 Libraries are in a unique position to aid communities during times of adversity and this comprehensive handbook's practical tools and expert guidance will help ensure that your library is thoroughly prepared for emergency response and recovery. Your library is a vital information hub and resource provider every single day and that's doubly true when calamity strikes. In fact, your library's role as an essential community function during disasters is now encoded in U.S. law. Engaging as a partner in planning and preparedness will build much needed community support should disaster strike and even a basic plan will also save you time and stress later on. No matter where your library is in the disaster planning cycle, this handbook will make the process clearer and less daunting. You'll get tools, activities, easy-to-adapt templates, and hands-on guidance on such topics as the six phases of disaster response, 15 first-hand accounts of library disaster planning or responses, helping you identify the library services most needed during a disaster, three essential factors that will shape the form of your disaster plan, preparing for hurricanes, tornadoes, fires, floods, and earthquakes, ideas for connecting with your community's emergency response teams, federal government planning resources, pointers on working with state and local governments, a sample Memorandum of Understanding to outline mutual support for a speedier recovery, recommended courses and training, many of which are free, targeted advice for archives and special collections, sample building inspection checklists, and recommended games to help children and families prepare. Literacy in Times of Crisis Laurie MacGillivray, 2009-12-04 On the frontline of critical issues in education today, this volume covers new ground for teachers and teacher educators for whom crisis is a daily part of their work. Exploring the relationship between crisis and literacy, its aims are to improve educators' ability to recognize, cope with, and avoid crisis and to advance their understanding of the dynamic relationship between crisis and cultural, historical, and political literacy practices. *Play Therapy with Children and Adolescents in Crisis, Fourth Edition* Nancy Boyd Webb, 2015-07-30 This book aims to provide professionals and clinicians in training with the latest forms of treatment for children and adolescents who have been

impacted by crises and trauma The various treatment options presented here include approaches that focus on the individual as well as many that include a parent in conjoint or filial therapy and others that employ a family treatment model Many chapters in this book demonstrate the use of a variety of creative methods with young people who have suffered traumatic experiences such as sexual abuse bullying immigration natural disasters and witnessing violence
