From late Victorian London to the end of the World War II underground writing created an imaginative world beneath the streets of London. The real subterranean railway was therefore re-enacted in number of ways in writing including as Dantean Underworld or hell as gateway to a utopian future as psychological looking glass or as place of safety and security. The book is a chronological study from the opening of the first underground in the 1860s to its role in WW2. Each chapter explores perspectives on the underground in a number of writers starting with George Gissing in the 1880s moving through the work of H.G. Wells and into the writing of the 1920s 1930s including Virginia Woolf and George Orwell. It concludes with its portrayal in the fiction poetry and art including Henry Moore of WW2. The approach takes a broadly cultural studies perspective crossing the boundaries of transport history literature and London urban studies. It draws mainly on fiction but also uses poetry art journals postcards and posters to illustrate. It links the actual underground trains tracks and stations to the metaphorical world of underground writing and places the writing in a social political context. **London in Contemporary British Fiction** Nick Hubble, Philip Tew, 2016-07-28 Contemporary writers such as Peter Ackroyd J.G. Ballard John King Ian McEwan

Lad Trouble Andrea Ochsner,2015-07-15 In the 1990s the male confessional novel most prominently represented by Nick Hornby High Fidelity but also by writers such as Tim Lott White City Blue and Mike Gayle My Legendary Girlfriend articulated the structure of feeling of the male generation in their late twenties early to mid thirties The book presents the advent of the male confessional novel in a fresh and yet critical light challenging the feminist claim that the genre should be understood as a backlash against feminism and a relapse into sexism By applying an eclectic theoretical framework ranging from Raymond Williams to Anthony Giddens Judith Butler and Jacques Derrida the study illustrates why the male confessional novel is too complex a phenomenon to be solely interpreted in terms of retrosexism It convincingly shows how the multitude of postmodern gender scripts adds to the crisis of identity and to the problematic nature of clearly defined gender relationships **London's Curse** Mark Beynon,2011-10-31 Throughout the 1920s and 1930s London was gripped by

the supposed curse of Tutankhamun whose tomb in the Luxor sands was uncovered in February 1923 by the British archaeologist Howard Carter The site was plundered and over the next few years more than twenty of those involved in the exhumation or in handling the contents of the tomb perished in strange and often terrifying circumstances prompting the myth of the Curse of Tutankhamun Nowhere particularly London s West End appeared to be safe for those who had provoked the ire of the Egyptian death gods A blend of meticulous research and educated conjecture historian and screenwriter Mark Beynon turns armchair detective as he uncovers a wealth of hitherto unpublished material that lays bare the truth behind these fatalities Could London s Curse be attributed to the work of a macabre mastermind It soon becomes apparent that these deaths were not only linked by the ominous presence of Tutankhamun himself but also by a murderer hell bent on retribution and dubbed by the press as The Wickedest Man in the World
