Philanthropists and Foundation Globalization Joseph Kiger, 2017-07-28 The modern American foundation as an instrumentality for charitable and philanthropic giving is in many ways a unique and complex social economic political institution This is particularly the case for foundations with large assets As a social phenomenon the foundation has deep roots in the past At the beginnings of any degree of civilization charitable giving and rudimentary forms of foundations emerge This is the case in many regions of the world The pattern is consistent once enough property or wealth beyond primitive human needs is accumulated some of it begins to be set aside for what the donors of such wealth consider worthwhile purposes The serious literature contributing greatly to public perception of philanthropy and foundations has been relatively sparse Much of what

is available is quantitative and statistical in nature There has been limited objective attention to the motives or reasons spurring individual philanthropists to engage or not to engage in creating foundations such motivation needs historical and comparative analysis Major investigations and studies of foundations together with ancillary national regional and international organizations to facilitate such study have received spotty consideration Philanthropists and Foundation Globalization addresses three interrelated aspects of foundation history First it reviews biographical historical profiles of the founding philanthropists and their heirs engaged in international giving Second it discusses major governmental and non governmental investigations and studies of foundations including domestic ones and also foreign ones in which U S participants have played a prominent role spanning the period 1912 to the present Third it chronicles foundation developments and activities in Europe at the close of the twentieth century The volume provides a historical account of some U S foundations international activity in a particular region in a specific time period and their a King Allan Gerald Levine,2011 Advance Praise for King Here we have Allan Levine one of the aces of Canadian historical chronicles channelling Mackenzie King And what a story they have to tell our longest serving prime minister getting advice from his dog and having two way conversations with his long dead mother If Canadian history was ever dull it isn't now Get this book Book jacket

Rockefeller's Dilemma Marsha E. Barrett,2024-08-15 Nelson Rockefeller s Dilemma reveals the fascinating and influential political career of the four time New York State governor and US vice president Marsha E Barrett s portrayal of this multi faceted political player focuses on the eclipse of moderate Republicanism and the betrayal of deeply held principles for political power Although never able to win his party s presidential nomination Rockefeller s tenure as governor was notable for typically liberal policies infrastructure projects expanding the state s university system and investing in local services and the social safety net As the Civil Rights movement intensified in the early 1960s Rockefeller envisioned a Republican Party recommitted to its Lincolnian heritage as a defender of Black equality But the party s extreme right wing encouraged by its successful outreach to segregationists before and after the nomination of Barry Goldwater pushed the party to the right With his national political ambitions fading by the late 1960s Rockefeller began to tack right himself on social and racial issues refusing to endorse efforts to address police brutality accusing without proof Black welfare mothers of cheating the system or introducing harsh drug laws that disproportionately incarcerated people of color These betrayals of his own ideals did little to win him the support of the party faithful and his vice presidency ended in humiliation rather than the validation of moderate ideals An in depth insightful and timely political history Nelson Rockefeller s Dilemma details how the standard bearer of moderate Republicanism lost the battle for the soul of the Party of Lincoln leading to mainlining of white grievance populism for the post civil rights era *From Silk to Silicon* Jeffrey E. God's Gold Skip Worden, 2017-01-03 Dr Worden traces the historical shift through the centuries of how Christian thinkers have assumed profit seeking and wealth are related to the sin of greed For centuries the dominant view was that making and accumulating money instantiates the presence of greed The uncoupling of greed from its assumed external manifestations began to take hold with Aquinas and was complete a century before the Protestant Reformation and its famed work ethic Rather than viewing the Reformation as pro wealth Worden characterizes the reformers broadly as applying the brakes to various degrees in hopes that Christianity would not lapse into accepting greed In the final chapter Worden proffers an explanation to account for the shift from the anti to pro wealth position He examines the core of Christian theology and finds a very subtle pro wealth bias and provides two remedies

Passionate Bureaucrat, The: Lessons For The 21st Century From 4,500 Years Of Public Service Reform Max Everest-phillips, 2018-06-28 Effective and impartial public administration is the foundation of state legitimacy This was understood 4 500 years ago when Urukagina the ruler of a small country in Mesopotamia proclaimed the first known reform of public service The quality of public administration will be even more important in the 21st century Successful states will be those that recognise public service as a key determinant of national competitive advantage That realisation will generate a radical change in the image of the civil servant from dull uninspired public official to passionate advocate of the common good This transformation will be the product of the complex challenges arising from the interweaving of globalisation with the 4th Industrial Revolution These and related developments are forcing governments around the world to search for public service that can respond to the unprecedented range of opportunities and threats emerging from a rapidly evolving international context In an increasingly frenetic world ruled by Wicked Ostriches and Black Elephants governments require a civil service capable of achieving five outcomes i unlocking the creativity and collaborative spirit needed to solve complex problems ii overcoming the fallacy that the private sector is inherently more innovative and efficient than the public service iii developing societies that are perceived by their citizens as fair iv fostering the trust of citizens in their governments and v bolstering the legitimacy of the state The author who is Director of the United Nations Development Programme s Global Centre for Public Service Excellence in Singapore suggests

that these interconnected aims will result in a new phenomenon the public recognition by political leaders and citizens that future prosperity political stability environmental sustainability and social cohesion are dependent on committed and creative civil servants passionate about promoting the long term national interest I shall pass through this world but once Any good therefore that I can do or any kindness that I can show to any human being let me do it now Let me not defer or neglect it for I shall not pass this way again Mahatma Gandhi Godliness and Greed Skip Worden,2010-12-16 Traditional scholarship often points to the Calvinists and Max Weber s writing on the Protestant ethic as the catalysts to changing Christian attitudes concerning profit seeking and wealth Author Skip Worden argues that the seeds of this change occurred centuries earlier From the beginning of the Commercial Revolution to the fifteenth century Renaissance he shows that the predominant Christian thought on economics went through a fundamental shift becoming favorable toward profit seeking and wealth holding Worden discusses this dramatic change and explains how the general antagonism toward the pursuit of wealth before the Commercial Revolution transformed into Protestant theologians fighting against the prevailing view of a pro wealth paradigm during the fifteenth century Worden contends that the shift away from the Patristic view of wealth occurred well before the addition of the Calvinist spirit of capitalism and the Puritan work ethic into Christian economic vernacular Drawing on Plato Cicero and Augustine early Protestant theologians unsuccessfully sought to check the rising dominance of the pro wealth Christian paradigm which they believed had been pushed too far These theologians of the sixteenth and seventeenth century felt it was too close to advocating love of gain itself something too close to the sin of greed How well the Reformation succeeded can be assessed by Worden s insightful concluding study of John D Rockefeller the ascetic steward of God s Gold in the form of monopoly Sherman Antitrust Act Richard Worth,2012-01-15 Discusses the drama that led to the Sherman Antitrust Act being passed and the effect this piece of legislation has had in the development of the United States
