Home Schooling Frederick M. Lawrence, 2007 From left to right on the political spectrum there is at least one note of agreement the nation's school system has not delivered universal quality education Accordingly debate has raged over how to rectify this situation Should the government increase funding encourage privatisation some of both Another option though has emerged and is seemingly gaining popularity home schooling Citing both substandard education and displeasure with school environments and curricula many parents have decided to teach their own children Supporters say it is well within their rights to raise their children as they see fit and that at home learning is superior to the public system Detractors claim that home schooled children are deprived of social interaction and the broad based education provided by the system Neither side wants to cede ground making the issue of home schooling an integral part of a wider national debate on education In this book the specific topic of home schooling is presented from all relevant sides to give a complete picture of the present status of the issue and its potential for future resolution Following this overview is a thorough and carefully selected bibliography of literature about home schooling from all viewpoints Easy access to his important resource is then provided via author title and subject indexes

95 Theses for a New Reformation Aaron Hebbard, 2017-10-09 Five hundred years ago Martin Luther wrote his Ninety Five Theses inaugurating the Protestant Reformation and with it exemplified an unflinching devotion to return to the Word of God as the ultimate authority Today the church is also in desperate need for reformation a new reformation to correct her shortcomings and meet the challenges of the day Some might see everything as fine some might see everything as hopeless and others might simply dismiss the church as irrelevant too impotent to reform herself much less to strengthen the disintegrating family or address the downward spiraling culture with a prophetic voice 95 Theses for a New Reformation confronts the necessity for reformation today head on Over thirty of today's pastors theologians and church leaders analyze ninety five current problems search the Scriptures for solutions and make sound biblical appropriations to implement into the life of the church family and culture On this 500th anniversary of the Protestant Reformation let us pray that the Lord will again revive his church for his own glory and for the purification of Christ's beloved bride the church And let us prepare ourselves to respond with urgency to God's call to action by reforming the church family and culture Contributors include John Frame John MacArthur R C Sproul Peter J Leithart and James White
