Safety and Security Issues in Technical Infrastructures Rehak, David, Bernatik, Ales, Dvorak, Zdenek, Hromada, Martin, 2020-04-17 In the modern age of urbanization the mass population is becoming progressively reliant on technical infrastructures. These industrial buildings provide integral services to the general public including the delivery of energy, information and communication technologies and maintenance of transport networks. The safety and security of these structures is crucial as new threats are continually emerging. *Safety and Security Issues in Technical Infrastructures* is a pivotal reference source that provides vital research on the modernization of occupational security and safety practices within information technology driven buildings. While highlighting topics such as explosion process safety, nanotechnology and infrastructural risk analysis, this publication explores current risks and uncertainties and the raising of comprehensive awareness for experts in this field. This book is ideally designed for security managers, safety personnel, civil engineers, architects, researchers, construction professionals, strategists, educators, material scientists, property owners and students.
