Toward a Negative Theology of Judaism Ernest Rubinstein, 2025-07-29 This book reimagines Judaism and Jewish identity after the time honored method of negative theology It builds on negations that clear space for revisioning of such topics as creation and revelation the people and State of Israel history and suffering ritual and ethics God and spiritual life The theology builds on thought from key figures in the history of Jewish philosophy and serves along the way as an introduction to them including Ecclesiastes Philo Saadia Gaon Judah Halevi Maimonides Spinoza Moses Mendelssohn Nachman Krochmal Hermann Cohen Franz Rosenzweig Martin Buber Abraham Joshua Heschel Emil Fackenheim Emmanuel Levinas Yeshayahu Leibowitz and more A key finding is that a shared negation binds God and the Jewish people together their joint refusal to submit to contentful constrictive definition

Land, Labor and the Origins of the Israeli-Palestinian Conflict, 1882-1914 Gershon Shafir, 1996-08-19 Gershon Shafir challenges the heroic myths about the foundation of the State of Israel by investigating the struggle to control land and labor during the early Zionist enterprise He argues that it was not the imported Zionist ideas that were responsible for the character of the Israeli state but the particular conditions of the local conflict between the European settlers and the Palestinian Arab population

Davies, 1996-01-01 This volume contains the papers from an international colloquium held in Jerusalem and attended by historians and archaeologists from Israel Europe and the United States on the theme of the formation of the early Israelite state These papers represent the latest research on this highly controversial period in ancient history which has enormous significance for biblical traditions about the United Monarchy

In the Workshop of History François Furet, 1984-12 Those concerned with the practice of history as a discipline and as an intellectual activity will be intrigued by the view of history that François Furet offers in this collection of essays After twenty five years as a professional historian at the Ecole des Hautes Etudes and in the ranks of the Annales school Furet sets out to reexamine the methodological and intellectual cleavages that exist today among historians Furet views history as a field bounded at each end by two ideal types One end is

concerned with the history of periods and with the empiricism of facts rather than received ideas At the other end is problem oriented history which substitutes for the supposed coherence of a period the analytical examination of a question Furet s own work leans toward the second more conceptually oriented kind of historiography The essays in this volume most of them never before published in English illustrate the breadth of his approach Furet s discussion ranges through Tocqueville s conceptual system to present day America from the origins of history in France to the Jewish experience in the late twentieth century Among Furet s recurrent themes is the contention that the historian constructs the object or field of his research rather than receiving it from the past

The Origins of Israeli Mythology David Ohana,2012-01-23 It is claimed that Zionism as a meta narrative has been formed through contradiction to two alternative models the Canaanite and crusader narratives These narratives are the most daring and heretical assaults on Israeli Jewish identity The Israelis according to the Canaanite narrative are from this place and belong only here according to the crusader narrative they are from another place and belong there The mythological construction of Zionism as a modern crusade describes Israel as a Western colonial enterprise planted in the heart of the East and alien to the area its logic and its peoples The nativist construction of Israel as neo Canaanism demands breaking away from the chain of historical continuity These are the greatest anxieties that Zionism and Israel needed to encounter and answer forcefully The Origins of Israeli Mythology seeks to examine the intellectual archaeology of Israeli mythology as it reveals itself through the Canaanite and crusader narratives

History from Below Brigitta Bernet,Lutz Raphael,Benjamin

Zachariah,2025-07-21 What we know as history from below has long been considered a more democratic form of history writing and research than forms of history that have counted sometimes by default as elite and therefore by implication elitist

But history from below also has a tendency towards populism an emphasis on authenticity on voices uncontaminated by elite narratives and a focus on the indigenous Apart from its having a long standing problem of finding sources to give voice to the underrepresented the question as to who can write about and therefore represent the people below and a possible focus in consequence on themes of blood soil and the Volk This volume explores over nine essays and an introductory thematic essay these tensions and dichotomies The purpose is to bring to the foreground a long standing danger of celebrating voices from below perhaps uncritically at times and therefore also of a romanticisation of those voices

The Rebirth of Antisemitism in the 21st Century David Hirsh, 2023-11-29 The Rebirth of Antisemitism in the 21st Century is about the rise of antizionism and antisemitism in the first two decades of the 21st century with a focus on the UK It is written by the activist intellectuals both Jewish and not who led the opposition to the campaign for an academic boycott of Israel Their experiences convinced them that the boycott movement and the antizionism upon which it was based was fuelled by and in turn fuelled antisemitism The book shows how the level of hostility towards Israel exceeded the hostility which is levelled against other states And it shows how the quality of that hostility tended to resonate with antisemitic tropes images and emotions Antizionism positioned Israel as symbolic of

everything that good people oppose it made Palestinians into an abstract symbol of the oppressed and it positioned most Jews as saboteurs of social progress The book shows how antisemitism broke into mainstream politics and how it contaminated the Labour Party as it made a bid for Downing Street This book will be of interest to scholars and students researching antizionism antisemitism and the Labour Party in the UK *The Founding of Modern States* Richard Franklin Bensel, 2022-11-03 This book examines the rise of the modern state through six case studies of state formation in England the United States France the Soviet Union Nazi Germany and the Islamic Republic of Iran The book summarizes key events in modern history and offers theories about the creation of modern states *Old Testament Theology: The theology of Israel's historical traditions* Gerhard von Rad, 2001-01-01 This republication of a classic work contains a new introduction by Walter Brueggemann that places Gerhard von Rad's work within the context of German theology Old Testament theology and the history of interpretation of the Old Testament In Old Testament Theology von Rad applies the most advanced results of form criticism to develop a new understanding of the Bible His original approach is now available once again in English The Old Testament Library provides fresh and authoritative treatments of important aspects of Old Testament study through commentaries and general surveys The contributors are scholars of international standing **The Fabric of History** Diana Vikander Edelman, 1991-09-01 Six scholars explore the nature of history and historical reconstruction and the place of history within biblical studies The uncritical use of both text and artifact that continues to dominate histories of Israel and Judah testifies to the need for a wider grassroots awareness of the basic issues involved in doing history as a biblical scholar A growing number of scholars are questioning the theoretical underpinnings of the main schools of research and are calling for an approach that makes a more critical evaluation of both textual and artifactual material before using it in historical reconstruction These essays were first presented at the annual SBL ASOR meeting in 1989 in a symposium entitled The Role of History and Archaeology in Biblical Studies
