Wolf Koenigs

Athenatempel Von Priene Wolf Koenigs:

Priene Frank Rumscheid, Wolf Koenigs, 1998 Geometrical Objects Anthony Gerbino, 2014-07-21 This volume explores the mathematical character of architectural practice in diverse pre and early modern contexts It takes an explicitly interdisciplinary approach which unites scholarship in early modern architecture with recent work in the history of science in particular on the role of practice in the scientific revolution As a contribution to architectural history the volume contextualizes design and construction in terms of contemporary mathematical knowledge attendant forms of mathematical practice and relevant social distinctions between the mathematical professions As a contribution to the history of science the volume presents a series of micro historical studies that highlight issues of process materiality and knowledge production in specific situated practical contexts Our approach sees the designer's studio the stone yard the drawing floor and construction site not merely as places where the architectural object takes shape but where mathematical knowledge itself is deployed exchanged and amplified among various participants in the building process *A Cultural History of Color in Antiquity*

David Wharton, Carole P. Biggam, Kirsten Wolf, 2024-05-02 *A Cultural History of Color* examines how color has been created traded used and interpreted over the last 5000 years The themes covered in each volume are color philosophy and science color technology and trade power and identity religion and ritual body and clothing language and psychology literature and the performing arts art architecture and interiors and artifacts back cover **Christ's Enthronement at God's Right**

Hand and Its Greco-Roman Cultural Context D. Clint Burnett, 2021-01-18 Given the dearth of non messianic interpretations of Psalm 110 1 in non Christian Second Temple Jewish texts why did it become such a widely used messianic proof-text in the New Testament and early Christianity Previous attempts to answer this question have focused on why the earliest Christians first began to use Ps 110 1 The result is that these proposals do not provide an adequate explanation for why first century Christians living in the Greek East employed the verse and also applied it to Jesus's exaltation I contend that two Greco Roman politico religious practices royal and imperial temple and throne sharing which were cross cultural rewards that Greco Roman communities bestowed on beneficent pious and divinely approved rulers contributed to the widespread use of Ps 110 1 in earliest Christianity This means that the earliest Christians interpreted Jesus's heavenly session as messianic and thus political as well as religious in nature **Vitruvius on Architecture**

Vitruvius Pollio, Thomas Gordon Smith, 2003 In about 25 B C the Roman architect Marcus Vitruvius Pollio presented to the emperor Augustus ten scrolls that contained everything he knew about architecture Synthesizing his studies of earlier Greek writings as well as lessons drawn from his own design career the *Ten Books on Architecture* discussed architectural practice and education building materials the correct proportions and elements of the Ionic Doric and Corinthian the design of temples public buildings and private houses and engineering and military planning More than two thousand years later his masterwork stands as both the most comprehensive architectural text of antiquity and one of the most important design treatises ever

written Just as Vitruvius set out to catalog the rules and ideals of ancient Greek architecture Thomas Gordon Smith in Vitruvius on Architecture presents the rules and ideals of Vitruvius himself This volume contains the five books most relevant to contemporary architecture along with a wealth of visual material photographs of ancient structures from Greece Italy and Turkey related sculptures frescoes and reliefs hypothetical re creations of Vitruvius s now lost illustrations and a series of exquisitely rendered watercolor plates based on his descriptions Vitruvius on Architecture is an exceptional accomplishment a study as relevant to the present as Vitruvius s was to his own day and to architecture since
