Author and Title Index*, 1975 *Management Accounting in a Dynamic Environment* Cheryl S. McWatters, Jerold L. Zimmerman, 2015-12-22 Whether students pursue a professional career in accounting or in other areas of management they will interact with accounting systems In all organizations managers rely on management accounting systems to provide information to deal with changes in their operating environment This book provides students and managers with an understanding and appreciation of the strengths and limitations of an organization's accounting system and enables them to be intelligent and critical users of the system The text highlights the role of management

accounting as an integral part of the organization's strategy and not merely a set of individual concepts and computations. An analytical framework for organizational change is used throughout the book to underscore how organizations must adapt to create customer and organizational value. This framework provides a way to examine and analyze the organization's accounting system and as a basis for evaluating proposed changes to the system. With international examples that bring the current business environment to the forefront, problems and cases to promote critical thinking and online support for students and instructors. *Management Accounting in a Dynamic Environment* is no mere introductory textbook. It prepares readers to use accounting systems intelligently to achieve organizational success. The authors have identified several cases to accompany each chapter in the textbook. Cost Management Leslie G. Eldenburg, Susan K. Wolcott, Liang-Hsuan Chen, Gail Cook, 2016-03-28. *Cost Management: Measuring, Monitoring, and Motivating Performance*, Third Canadian Edition, was written to help students learn to appropriately apply cost accounting methods in a variety of organizational settings. To achieve this goal, students must also develop professional competencies such as strategic critical thinking, risk analysis, decision making, ethical reasoning, and communication. This is in line with the CPA curriculum, and the content of this edition and the problem materials is mapped to the CPA. Many students fail to recognize the assumptions, limitations, behavioural implications, and qualitative factors that influence managerial decision making. The textbook is written in an engaging, step-by-step style that is accessible to students. The authors are proactive about addressing the challenges that instructors and students face in their teaching and learning endeavors. They utilize features such as realistic examples, real ethical dilemmas, self-study problems, and unique problem material structured to encourage students to think about accounting problems and problem solving more complexly.
