Resources in Education ,1999 **Knowledge in the Blood** Jonathan D. Jansen,2009-04-07 This book tells the story of white South African students how they remember and enact an Apartheid past they were never part of How is it that young Afrikaners born at the time of Mandela s release from prison hold firm views about a past they never lived rigid ideas about black people and fatalistic thoughts about the future Jonathan Jansen the first black dean of education at the historically white University of Pretoria was dogged by this question during his tenure and Knowledge in the Blood seeks to answer it Jansen offers an intimate look at the effects of social and political change after Apartheid as white students first experience learning and living alongside black students He reveals the novel role pedagogical interventions played in confronting the past as well as critical theory s limits in dealing with conflict in a world where formerly clear cut notions of victims and perpetrators are blurred While Jansen originally set out simply to convey a story of how white students changed under the leadership of a diverse group of senior academics Knowledge in the Blood ultimately became an unexpected account of how these students in turn changed him The impact of this book s unique wide ranging insights in dealing with racial and ethnic divisions will be felt far beyond the borders of South Africa **Contextualising Rural Education in South African**

Schools ,2023-04-03 South Africa s democratic government inherited a divided and unequal system of education Under apartheid South Africa had nineteen different educational departments separated by race language geography and ideology This education system prepared learners in different ways for the positions they were expected to occupy in social economic and political life under apartheid and was funded and resourced in ways that favoured white people and disadvantaged black people who remain in the working class The newly elected democratic government in 1994 laid a foundation for a single national education system Twenty five years after the dawn of democracy education is still in a parlous state in many communities in South Africa but it is in the rural areas mainly in the former homelands that learners are most disadvantaged Contributors are Olufemi Timothy Adigun Oluwatoyin Ayodele Ajani Alan Bhekisisa Buthelezi Joyce Phikisile Dhlamini Bongani Thulani Gamede Samantha Govender Lawrence Kehinde Nontobeko Prudence Khumalo Primrose Ntombenhle Khumalo Azwidohwi Philip Kutame Manthekeleng Linake Sive Makeleni Nkhensani Maluleke Bothwell Manyonga Mncedisi Christian Maphalala Takalani Mashau Hlengiwe Romualda Mhlongo Rachel Gugu Mkhasibe Dumisani Wilfred Mncube Nicholus Tumelo Mollo Ramashego Shila Mphahlele Fikile Mthethwa Grace Matodzi Muremela Edmore Mutekwe Nokuthula Hierson Ndaba Clever Ndebele Thandiwe Nonkululeko Ngema Phiwokuhle Ngubane Sindile Ngubane Dumisani Nzima Livhuwani Peter Ramabulana and Maria Tsakeni **Education for sustainable development in BRICS** Ewelina K.

Niemczyk,2023-03-01 In the past ten years the concept of education for sustainable development has become one of UNESCO s key educational initiatives to address current global challenges However the attention was mainly devoted to primary and secondary education and higher education was somewhat neglected The primary focus on basic education has

also diverted academic attention from the research exploring the relationship between higher education and sustainable development Only recently has the academic discourse on this topic begun to gain ground On that note this book is meant to place higher education at the core of the necessary transformations to create awareness of more sustainable practices and policies

This book explores the challenge of dismantling colonial schooling and how entangled power relations of the past have lingered in post apartheid South Africa It examines the on the ground history of colonialism from the vantage point of a small town in the Karoo region showing how patterns of possession and dispossession have played out in the municipality and schools Using the strong political and ontological critique of decoloniality theories the book demonstrates the ways in which government interventions over many years have allowed colonial relations and the construction of racialised differences to linger in new forms including unequal access to schooling Written in an accessible style the book considers how the dream of decolonial schooling might be realised from the vantage point of research on the margins This Karoo region also offers an interesting case study as the site where the world s largest radio telescope was recently located and highlights the contrasting logics of international big science and local development needs This book will be of interest to academics and scholars in the education field as well as to social geographers sociologists human geographers historians and policy makers Chapters 1 and 10 of this book are freely available as downloadable Open Access PDFs at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license
