

ESSAY WRITING IN MSCE HISTORY

Normally, essay questions at MSCE level are of higher order and carry key words like discuss, explain, in which way, describe etc. Such questions demand more than mere comprehension of facts.

This means that you have to tackle them with maturity.

However, before beginning an essay, it is very necessary to understand what the question is demanding.

You also need to understand the vocabulary in the question and how many parts the question is demanding.

ORGANISING THE MATERIAL

After reading the question, you should accumulate information or points. It is your duty to put these points in logical sequence that should be interesting and meaningful to the marker. Proper arrangement may be based on:

- Chronological order (time frame)
- Logical order (from one concept to the other)

PARTS OF AN ESSAY

1. TITLE

- This is framed from the question that you have been asked.
- Note that the title should not be quantified i.e the title should not show the number of points that you have been asked as this will be reflected in the main body.
- The title should be written in small letters (underlined) or capital letters (not underlined).
- After the title, the essay should have the following distinct but related paragraphs:

2. INTRODUCTION

- At least a third of the page should be for introduction and should include the following:
- Showing background information i.e what previous knowledge about the topic from which the question has been picked you have, apart from answering the question. This can be in form of a definition or any information that you have about the topic.

Focus of attention i.e. what the reader should expect in the essay.

3. MAIN BODY

- This is where you actually address what the question is asking by demonstrating your art

of breaking down the materials gathered i.e. the points.

- ✓ This is put in paragraphs and the number of paragraphs will depend on the factors that you

have been asked either to explain or discuss,

- ✓ For proper boundaries of the paragraphs, you are supposed to use words which are known as 'signaling devices.'

- ✓ These are used for thorough and logical flow of information.

NB: Most devices have specific paragraphs.

1966-1975: Subjects, periods, and civilizations John Neu, 1980 *Men of Achievement*, 1992 *Educating the Engineer for the 21st Century* D. Weichert, B. Rauhut, R. Schmidt, 2006-02-17 Upspeeding technological evolution and globalisation characterise today's and future lives of engineers. It is vital for all institutions involved in engineering education to keep pace and to anticipate future needs. The herein presented collection of papers results from the Workshop on Global Engineering Education GEE 3 which took place at Aachen University of Technology 18-20 October 2000. In this meeting more than 150 specialists from 25 countries discussed the topic 'Educating the Engineer for the Century'. Which role to attribute to non-technical qualifications? How to integrate ethical aspects in education? Do we have to define international standards in education? What about quality control? What is the potential of new media for knowledge transfer? How to organise lifelong learning for engineers? These are some of the questions discussed among representatives of industries, educational institutions, politicians and individuals during this meeting. According to the sessions of the workshop, the book is subdivided into chapters covering the areas: Role of the Global Engineer in Meeting the Challenges of Society in the Century; Internationality and Interdisciplinarity; Engineering Education in Emerging Economies; European Bachelor and Master Programmes; Developing Personal Skills to be a Global Engineer. Three chapters deal with successful practice in engineering education covering the topics: Programmes; Curricula; and Evaluation. It highlights the fact that even though indentured women faced various kinds of violence and abuse owing to the authoritarian and patriarchal setup of the plantations over a period of time, they managed to turn the adverse circumstances to their advantage. They struggled to emerge as productive workforces and empowered themselves through acquiring education and skill and negotiating new spaces and identities for themselves. At the same time, they also raised families in often inhospitable circumstances, passing on to their descendants a strong foundation to build successful lives for themselves. The book discusses indentured women from a multidisciplinary perspective and adopts multiple methodologies including primary and secondary sources, personal narrations, pictorial representations and theoretical discussions. It also provides an overview of the current discourses and the changing paradigms of the studies on Indian indentured women. Further, it presents a detailed region-wise description of indentured women migrants. The regions covered in this book are Asia Pacific; countries covered are Fiji, Burma and Nepal; Africa

countries covered are South Africa Mauritius and Reunion Island and the Caribbean countries covered are Suriname Trinidad and Tobago In addition one full section of the book is devoted to the theoretical frameworks that touch upon gender performativity normative misogyny Bahadur s Coolie Women literary representations and resistance movements It is intended for academics and researches in the field of diaspora migration transnational studies history sociology literature women gender studies as well as policymakers and general readers interested in the personal experiences of women and migrants *Who's who in the Midwest* ,2005 Who was who in America Marquis Who's Who, LLC,2004-08 Who's who in the West ,2004 **Guide to American Graduate Schools** ,1990 **American Universities and Colleges** ,1968
