Infrastructures for Peace in Sub-Saharan Africa Mediel Hove, Geoff Harris, 2019-06-14 Cultures of violence are characteristic of many countries in sub Saharan Africa and attempts to move towards cultures of peace have often proved difficult and ineffectual And yet the wide variations in levels of violence within and between countries show that it is not inevitable rather it is the result of choices made at individual community and societal levels This book examines the potential of peace infrastructures as vehicles to strengthen and spread progress towards cultures of peace Peace infrastructures vary hugely in sophistication and level The examples examined in this book range from tiny structures which help resolve conflicts between individuals and within community organisations peace committees which serve local communities peace education and peace club programmes in schools mediation mechanisms to prevent election violence and to ministries of peace to coordinate government and non government efforts in peacemaking and peacebuilding The overall finding is that the development of peace infrastructures at all levels has great potential to build cultures of peace 1 It is the only book available which documents the experience and

potential of nonviolence in post independence sub Saharan Africa 2 It makes a persuasive case for the development of various peace infrastructures in order to make peace sustainable 3 It explains how strategic planning can be utilised both to bring about change and to institutionalise it **Africa's Top Geological Sites** Richard Viljoen, 2016-09-01 Africa is home to more than the Cradle of Humankind It was the core of the ancient supercontinent Pangaea and comprises some of the oldest and most extraordinary geology on planet Earth This detailed and colourful book features 44 of the continent's most spectacular and interesting geosites from Table Mountain in the south to the eroded necks and plugs of the Hoggar region in Algeria and from the volcanic islands of the Atlantic Ocean to the continental fragments off the African east coast Each site is authored by a geologist or specialist in a related field with in depth knowledge about the particular feature or landform how it formed and developed its current geological status ecological impact and its archaeological and cultural interest Supported with many photographs maps satellite images and explanatory illustrations the text is accessible to geologists and lay enthusiasts alike unpacking the hows and whys of Africa's most intriguing landforms sites and geological features
