Intelligent Tutoring Systems Vincent Aleven, Judy Kay, Jack Mostow, 2010-05-29 The 10th International Conference on Intelligent Tutoring Systems ITS 2010 continued the bi annual series of top flight international conferences on the use of advanced educational technologies that are adaptive to users or groups of users. These highly interdisciplinary conferences bring together researchers in the learning sciences, computer science, cognitive or educational psychology, cognitive science, artificial intelligence, machine learning, and linguistics. The theme of the ITS 2010 conference was Bridges to Learning, a theme that connects the scientific content of the conference and the geography of Pittsburgh, the host city. The conference addressed the use of advanced technologies as bridges for learners and facilitators of robust learning outcomes. We received a total of 186 submissions from 26 countries on 5 continents: Austria, Brazil, Canada, China, Estonia, France, Georgia, Germany, Greece, India, Italy, Japan, Korea, Mexico, The Netherlands, New Zealand, Pakistan, Philippines, Saudi Arabia, Singapore, Slovakia, Spain, Thailand, Turkey, the UK, and USA. We accepted 61 full papers (38%) and 58 short papers. The diversity of the field is reflected in the range of topics represented by the papers submitted, selected by the authors. *Exemplars of Assessment in Higher Education, Volume Two* Jane Marie Souza, Tara A. Rose, 2023-11-09 In this second volume of the successful *Exemplars of Assessment in Higher Education*, editors Souza and Rose share examples of assessment practice from over fifteen distinct and diverse Higher Education Institutions, including international contributions. Building upon the work of the first volume, the case studies in this book reflect the changes in assessment and higher education in the post-Covid education environment. The institutions that appear in this book were chosen for having an effective assessment approach in one or more of the following areas: career readiness, distance education, diversity, equity, and inclusion, or general education. Each part of the book discusses one of these four areas with chapters that feature real-life examples from the educators who teach at the college or university. Featuring a Foreword by AACU President Lynn Pasquerella, the work highlighted in this book is also aligned with AACU's Valid Assessment of Learning in Undergraduate Education (VALUE) initiative to help educators make the best decisions about measuring student learning. This book is ideal for university educators and assessment practitioners looking to diversify and enhance their assessment practices. A Co-Publication with AACU.
