What Might Be Susan Sturm, 2025-02-11 How to turn the paradoxes built into anti racism work into drivers of learning and change Even as anti racism practices seemed to be gaining momentum the nation

shows signs of falling back into long standing patterns of racial injustice and inequality Leaders who introduce anti racist approaches to their organizations often face backlash from white colleagues and skepticism from colleagues of color leading to paralysis In *What Might Be* Susan Sturm explores how to navigate the contradictions built into our racialized history relationships and institutions She offers strategies and stories for confronting racism within predominantly white institutions describing how change agents can move beyond talk to build the architecture of full participation Sturm argues that although we cannot avoid the contradictions built into efforts to confront racism we can make them into engines of cross racial reflection bridge building and institutional reimagination rather than falling into a Groundhog Day like trap of repeated failures Drawing on her decades of experience researching and working with institutions to help them become more equitable and inclusive Sturm identifies three persistent paradoxes inherent in anti racism work These are the paradox of racialized power whereby anti racism requires white people to lean into and yet step back from exercising power the paradox of racial salience which means that effective efforts must explicitly name and address race while also framing their goals in universal terms other than race and the paradox of racialized institutions which must drive anti racism work while simultaneously being the target of it Sturm shows how people and institutions can cultivate the capacity to straddle these contradictions enabling those in different racial positions to discover their linked fate and become the catalysts for long term change The book includes thoughtful and critical responses from Goodwin Liu Freeman Hrabowski and Anurima Bhargava
