

College Readiness Math Initiative: Intensified Algebra

Year 6 Evaluation Findings

College Spark Washington (CSW) is an organization dedicated to improving educational outcomes for low-income students in Washington State. It works in concert with the Washington Office of the Superintendent of Public Instruction (OSPI) and other chosen entities on targeted large-scale initiatives to achieve shared goals. CSW and OSPI launched a College Readiness Math Initiative (CRMi) designed to prepare students to transition into college math without the need for remediation. Agile Mind and the Charles A. Dana Center at The University of Texas at Austin led the effort from 2012-2022.

Over multiple years, external evaluators from The BERC Group studied the quantitative and qualitative impacts of implementing Agile Mind's **Intensified Algebra I (IA)**, an intervention program for students who enter Algebra I 2-3 years behind and struggling with mathematics. Key findings are summarized here:

- **Participation in IA resulted in significant achievement gains.** Across all cohorts and multiple years in almost 40 communities, IA students had higher grades and lower failure rates than students in comparison groups, and 7 of 8 cohorts showed statistically significant positive effects from IA, up to a .55 effect size.
- **Years after participation, IA students continued to achieve gains.** The program was associated with success on the Smarter Balanced Exam a full year later, and in 12th grade IA students had an average math GPA a full half grade higher than comparison students.
- **IA was associated with growth among both teachers and administrators.** Despite high turnover and the changing landscape, IA teachers became leaders in their schools, sharing IA strategies—such as mindset work and engagement strategies—and are positively affecting math departments through the sharing of IA training and materials.
