An Introduction to Theatre Design Stephen Di Benedetto, 2013-02-28

This introduction to theatre design explains the theories, strategies and tools of practical design work for the undergraduate student. Through its numerous illustrated case studies and analysis of key terms, students will build an understanding of the design process and be able to identify the fundamentals of theatre design and scenography, recognize the role of individual design areas such as scenery, costume, lighting and sound, develop both conceptual and analytical thinking, communicate their own understanding of complex design work, trace the traditions of stage design from Sebastiano Serlio to Julie Taymor. Demonstrating the dynamics of good design through the work of influential designers, Stephen Di Benedetto also looks in depth at script analysis, stylistic considerations and the importance of collaboration to the designer's craft. This is an essential guide for students and teachers of theatre design. Readers will form not only a strong ability to explain and understand the process of design but also the basic skills required to conceive and realise designs of their own.

Activating the Inanimate: Visual Vocabularies of Performance Practice Celia Morgan, Filipa Malva, 2019-01-04. This volume was first published by Interdisciplinary Press in 2013. The dynamic exchange of perspectives that constituted the 2nd Global Conference of Performance Visual Aspects of Performance Practice demonstrated that the foundational concept of the project is a vibrant platform for sharing and extending ideas within all aspects of scenographic practice in performance. This volume is a compilation of papers that formed the basic structure of that conference. The first four chapters present a developing schema of visual languages within theatre. From Beckett, Ibsen, Svoboda to Wilson, they navigate the symbolic and visual prioritizing of postdramatic scenographic forms. Part 2 reconsiders the predetermined divisions that deflate experiential encounters with the inanimate. Dance, puppetry and slapstick provide examples of interaction between performers and their environment. Part 3 addresses various renderings of design processes, exploring the role of drawing, fabric and body in creating a narrative. Part 4 negotiates the sensitive interface between public and performance while looking at the Burning Man Festival, flash mobs and opera media casting. The final chapters represent a global collective of process strategies that confront the production and methodologies of meaning. They engage with cultural presumptions and subjectivities in post-Cultural Revolution China, Spanish flamenco, American Indian post-colonial resistances and the traditions of Australian Aboriginal artists.
