2nd Grade Lessons Informative Writing:

Nonfiction Craft Lessons JoAnn Portalupi, Ralph J. Fletcher, 2001 Writing nonfiction represents a big step for most students. Most young writers are not intimidated by personal narrative, fiction, or even poetry, but when they try to put together a teaching book report or persuasive essay, they often feel anxious and frustrated. JoAnn Portalupi and Ralph Fletcher believe that young nonfiction writers supply plenty of passion, keen interest, and wonder. Teachers can provide concrete strategies to help students scaffold their ideas as they write in this challenging genre. Like the authors' best-selling *Craft Lessons Teaching Writing K-8*, this book is divided into sections for K-2, 3-4, and middle school grades 5-8 students. These divisions reflect various differences between emerging, competent, and fluent writers. In each section, you'll find a generous collection of craft lessons directed at the genre that's most appropriate for that particular age. In the K-2 section, for example, a number of craft lessons focus on the all-about or concept book. In the 3-4 section, there are several lessons on biography. In the 5-8 section, a series of lessons addresses expository writing. Throughout the book, each of the 80 lessons is presented on a single page in an easy-to-read format. Every lesson features three teaching guidelines: Discussion (A brief look at the reasons for teaching the particular element of craft, specifically in a nonfiction context), How to Teach It (Concrete language showing exactly how a teacher might bring this craft element to students in writing conferences or a small group setting), and Resource Material (Specific book or text referred to in the craft lesson, including trade books or a piece of student writing in the Appendixes). This book will help students breathe voice into lifeless dump-truck writing and improve their nonfiction writing by making it clearer, more authoritative, and more organized. *Nonfiction Craft Lessons* gives teachers a wealth of practical strategies to help students grow into strong writers as they explore and explain the world around them. Be sure to look at the When Students Write videotapes too. *Common Core Standards for Elementary Grades K-2 Math & English Language Arts* Amber Evenson, Monette McIver, Susan Ryan, Amitra Schwols, 2013-05-20 Smart implementation of the Common Core State Standards requires both an overall understanding of the standards and a grasp of their implications for planning teaching and learning. This Quick Start Guide provides a succinct all-in-one look at the content, structure, terminology, and emphases of the Common Core standards for mathematics and English language arts and literacy in the lower elementary grades. The meaning of the individual standards within each of the four ELA literacy strands and five math domains, with an emphasis on areas that represent the most significant changes to business as usual. How the standards connect across and within strands, domains, and grade levels to develop the foundational language arts literacy and mathematics understanding that will support a lifetime of successful learning. Here, teachers of grades K-2 and elementary school leaders will find information they need to begin adapting their practices to help all students master the new and challenging material contained in the standards. A practical lesson planning process to use with the Common Core based on Classroom Instruction That Works 2nd Ed is included along with six sample lessons. **LEARN THE ESSENTIALS OF THE COMMON CORE** The grade level and subject
