Unarchived Histories Gyanendra Pandey, 2013-12-17 For some time now scholars have recognized the archive less as a neutral repository of documents of the past and rather more as a politically interested representation of it and recognized that the very act of archiving is accompanied by a process of un archiving Michel Foucault pointed to madness as describing one limit of reason history and the archive This book draws attention to another boundary marked not by exile but by the ordinary and everyday yet trivialized or trifling It is the status of being exiled within by prejudices procedures activities and interactions so fundamental as to not even be noticed that marks the unarchived histories investigated in this volume Bringing together contributions covering South Asia North and South America and North Africa this innovative analysis presents novel interpretations of unfamiliar sources and insightful reconsiderations of well known materials that lie at the

centre of many current debates on history and the archive
