

INTRODUCTION

Assembled in this book are operating and maintenance instructions for the International 240 Tractor. This manual has been prepared in detail in the hope that it will help you to better understand the correct care and efficient operation of your tractor.

If you should need information not given in this manual, or require the services of a trained mechanic, get in touch with the International Machinery Dealer in your locality. Dealers are kept informed on the latest models of servicing tractors. They carry stocks of 30 parts, and are backed in every way by the full facilities of a nearby International Machinery District Office.

Throughout this manual the use of the terms **LEFT, RIGHT, FRONT, and REAR** must be understood to avoid confusion when following instructions. **LEFT** and **RIGHT** indicate the left and right sides of the tractor when facing forward in the driver's seat. Reference to **FRONT** indicates the radiator end of the tractor; to **REAR**, the derrick end. See *Illustr. 2*.

Illustr. 2

The illustrations in this manual are numbered to correspond with the pages on which they appear; for example, *Illustr. 2*, is on 20 and on page 2.

In order to provide a tractor equipped as nearly as possible to suit each customer's needs, a variety of extra equipment and accessories is available.

Many of these items are illustrated and described in the Extra Equipment and Accessories section of this manual.

Where operating and maintenance instructions on these items is required, it is included in the instructions for operating and maintaining the tractor. Storegard the instructions for equipment not in your tractor.

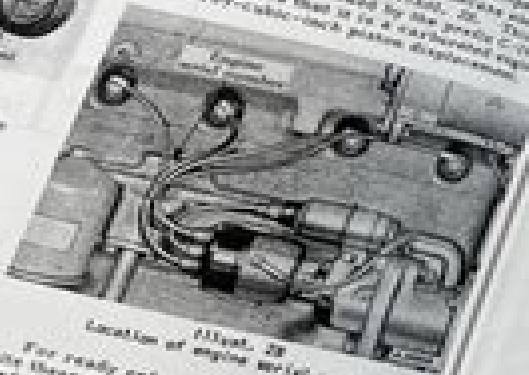

When in need of parts, always specify the tractor and engine serial numbers. The serial numbers are stamped in a convenient location on the right side of the engine block. See *Illustr. 24*.

The engine serial number is stamped in the right side of the engine crankcase opposite the crankcase breather. See *Illustr. 26*. The serial number is preceded by the prefix C-100, which indicates that it is a crankcase engine with a 240-cubic-inch piston displacement.
