<https://www.khanacademy.org/science/biology/her/evolution-and-natural-selection/a/lines-of-evidence-for-evolution>

2. Please read the statements below and mark whether they are true or false. Rewrite the statements that are false so that they become true. Note where you found the information that supports your decision. Following completion of the guide discuss your answers with a partner. This will then be followed by a whole class discussion of the text. You may be called upon to justify your responses to the statements.

Literal Level	True/False	Paragraph number
As a result of evolution organisms may possess organs that have no longer have a function.		
Scientists have found complete and uninterrupted fossil records.		
In some circumstances evolution can be observed directly.		
The common ancestor of all organisms utilised DNA as its genetic information.		
Scientists cannot determine how closely related different organisms are.		

Interpretive Level	True/False	Paragraph number
Species cannot undergo micro and macroevolution simultaneously.		
All species have the same basic structural features.		
Scientists can make inferences of the evolution of species without a complete fossil record.		
Microevolution does not accurately reflect the process of evolution that has occurred in the past.		
Analogous structures do not disprove the theory of evolution.		

Applied Level	True/False	Paragraph number
The available evidence means that the theory of evolution is indisputable and will not be revised.		
Scientists can accurately track the changes that have occurred in species over time and can use this information to predict future changes in species.		
The continued collection of fossil records will contribute to a better understanding of the theory of evolution.
