White,Joost Jongerden,2021-08-04 This volume discusses how the multifaceted reality of Turkey's Alevis impinges on society and politics in contemporary Turkey. The book provides readers with a vigorous discussion of the origins and history of the Alevis, examines their ethnic identity and cultural representation as well as appraising their political life and the effect that this had on Turkey's polity, the Turkish Left and the Kurdish National Movement and upon the emergence of civil society. It analyses Alevi cultural manifestations and even looks at how Alevi diaspora communities in Europe affect Turkey in various ways. The book therefore provides readers with a convenient handbook of an important group that is largely unknown in the West. Turkey's Alevis **Alevi**

Alevis in Europe Tözün İssa, 2016-07-22 The Alevis are a significant minority in Turkey and now also in the countries of Western Europe. Over the past century many of them have migrated from rural enclaves on the Anatolian plateau to the great cities of Istanbul and Ankara and from there to the countries of the European Union. This book asks who are they? How do they construct their identities now and in the past in Turkey and in Europe? A range of scholars writing from sociological, historical, socio-psychological and political perspectives present analysis and research that shows the Alevi communities grouping and regrouping, defining and redefining, sometimes as an ethnic minority, sometimes as religious groups, sometimes around a political philosophy contingently responding to circumstances of the Turkish Republic's political position and to the immigration policies of Western Europe. Contributors consider Alevi roots and cultural practices in their villages of origin, the changes in identity following the migration to the *gecekondu* shanty towns surrounding the cities of Turkey, the changes consequent on their second diaspora to Germany, the UK, Sweden and other European countries, and the implications of European citizenship for their identity. This collection offers a new and significant contribution to the study of migration and minorities in the wider European context. *Researching Peace, Conflict, and Power in the Field* Yasemin Gülsüm

Occultism in a Global Perspective Henrik Bogdan,Gordan Djurdjevic,2014-09-11 The study of the ideas and practices associated with

occultism is a rapidly growing branch of contemporary scholarship. However, most research has focused on English and French speaking areas and has not addressed the wider spread and significance of occultism. *Occultism in a Global Perspective* presents a broad international overview. Essays range across the German magical order of the Fraternitas Saturni, esoteric Satanism in Denmark, sexual magic in Colombia, and the reception of occultism in modern Turkey, India, and the former Yugoslavia. As any other form of cultural practice, the occult is not isolated from its social, discursive, religious, and political environment. By studying occultism in its global context, the book offers insights into the reciprocal relationships that colour and shape regional occultism.

Effects of Alevi-Sunni Marriages on Children's Religious Education and Family Relations Dr. Fatma Kurttekin, 2024-12-31. In this study, the views of parents in Alevi-Sunni marriages on the phenomenon of religion and their children's religious education are examined. While there has been a growing body of research on the role and significance of religion in Alevi-Sunni families, limited attention has been paid to their attitudes towards their children's religious education, particularly within the context of cross-religious marriages. Based on this, this study aims to fill this research gap by examining the perspectives of parents in Alevi-Sunni marriages on their children's religious education and family dynamics, using qualitative methods to provide in-depth insights. Ten families living in Sivas, Ankara, and Tunceli, who were contacted through snowball and purposive sampling, participated in the study, in which qualitative research techniques were used. The data used in the study were collected through questionnaires and semi-structured interview forms. The data was analyzed with the content analysis. It was determined that the Alevi-Sunni difference did not have a significant impact on the participants' religious attitudes or their children's religious education. Almost all parents stated that they wanted their children to choose their own path by acquiring experience and knowledge about both religious interpretations and understandings. The study identified two primary areas of difficulty in Alevi-Sunni families: familial opposition to the participants' decision to marry and conflicts surrounding the children's religious education. These tensions may stem from societal pressures to conform to sectarian norms and the fear of losing religious identity through cross-mixed intrafaith marriages. Such pressures highlight the need for open dialogue and acceptance within families, which many participants reported as key to resolving conflicts. The provision of religious education in the family and the religious identity of children have been discussed in a separate study.

Therefore in this study participants views on compulsory religious education activities which are also a subject of debate in society were evaluated In parallel with the findings in the literature the participants opinions were grouped in three categories namely abolishing the courses making the courses optional and improving the courses along with preserving their compulsory status Following the interviews it was seen that the participants could have arguments mostly due to external factors and that their own religious understanding did not have any impact on family life religious attitudes or child rearing Attention was drawn to the need for freedom from prejudices acceptance of the other as he she is honesty trust and a communicative environment of dialogue in order to reduce the tension in these two areas

Cycle of Fear Leon T. Goldsmith, 2015 The Alawites are a key component to the current civil war in Syria Journalist Robert D Kaplan compared Hafez al Assad s coming to power to an untouchable becoming maharajah in India or a Jew becoming tsar in Russia an unprecedented development shocking to the Sunni majority population which had monopolized power for so many centuries 31 In 1971 al Assad declared himself president of Syria a position the constitution at the time permitted only for Sunni Muslims The author shows how the political behavior of Alawites has long been shaped by the group s insecurity and lack of true integration into society

Healing Secular Life Christopher Dole, 2012-08-16 In contemporary Turkey a democratic secular and predominantly Muslim nation the religious healer is a controversial figure Attracting widespread condemnation religious healers are derided as exploiters of the sick and vulnerable discredited forms of Islamic and medical authority and superstitious relics of a pre modern era Yet all sorts of people and not just the desperately ill continue to seek them out After years of research with healers and their patients in working class neighborhoods of urban Turkey anthropologist Christopher Dole concludes that the religious healer should be regarded not as an exception to Turkey s secular modern development but as one of its

defining figures *Healing Secular Life* demonstrates that religious healing and secularism in fact have a set of common stakes in the ordering of lives and the remaking of worlds Linking the history of medical reforms and scientific literacy campaigns to contemporary efforts of Qur'anic healers to treat people afflicted by spirits and living saints through whom deceased political leaders speak *Healing Secular Life* approaches stories of healing and being healed as settings for examining the everyday social intimacies of secular political rule This ethnography of loss care and politics reveals not only that the authority of the religious healer is deeply embedded within the history of secular modern reform in Turkey but also that personal narratives of suffering and affliction are inseparable from the story of a nation seeking to recover from the violence of its own secular past
