Chaucer's Dream Poetry Barry A. Windeatt, 1982 This volume makes available in translation the texts that lie behind Chaucer's dream poems The Book of the Duchess The Parliament of Fowls The House of Fame and Prologue to the Legend of Good Women Chaucer's dream poems are now being increasingly studied and appreciated With their attractively bookish dreamer figure and their graceful use of conventions and traditions they have their distinctive place in Chaucer's work But the modern reader of these medieval poems particularly needs a sense of their literary context in the tradition of comparable narrative poems largely in Old French which Chaucer knew and drew upon None of these French poems has ever been made available in English translation before and many of the texts are difficult to access being available only in dated French scholarly editions The authors represented are Froissart Machaut and Deschamps as well as some minor and anonymous poems and there are also relevant translations from Cicero and Boccaccio The book gives an idea of what Chaucer's sources were in themselves and in what ways the English poet was inspired to use and go beyond them and this presents a picture of the poet at work Some of the French poems are translated carefully by Chaucer while with other poems he is selective interested in certain sections of his sources only In further cases the original material can be seen to have provided a more general point of departure for Chaucer's own developments on his work **Medieval Dream-Poetry** A. C.

Medieval Autographies A. C. Spearing, 2012-11-15 In *Medieval Autographies* A C Spearing develops a new engagement of narrative theory with medieval English first person writing focusing on the roles and functions of the I as a shifting textual phenomenon not to be defined either as autobiographical or as the label of a fictional speaker or narrator Spearing identifies and explores a previously unrecognized category of medieval English poetry calling it autography He

describes this form as emerging in the mid fourteenth century and consisting of extended nonlyrical writings in the first person embracing prologues authorial interventions in and commentaries on third person narratives and descendants of the dit a genre of French medieval poetry He argues that autography arose as a means of liberation from the requirement to tell stories with preordained conclusions and as a way of achieving a closer relation to lived experience with all its unpredictability and inconsistencies Autographies he claims are marked by a cluster of characteristics including a correspondence to the texture of life as it is experienced a montage like unpredictability of structure and a concern with writing and textuality Beginning with what may be the earliest extended first person narrative in Middle English Winner and Waster the book examines instances of the dit as discussed by French scholars analyzes Chaucer s Wife of Bath s Prologue as a textual performance and devotes separate chapters to detailed readings of Hoccleve s Regement of Princes prologue his Complaint and Dialogue and the witty first person elements in Osborn Bokenham s legends of saints An afterword suggests possible further applications of the concept of autography including discussion of the intermittent autographic commentaries on the narrative in Troilus and Criseyde and Capgrave s Life of Saint Katherine

The High Medieval Dream Vision Kathryn L. Lynch,1988-06-01 In the High Middle Ages the dream narrative was an enormously popular and influential form Along with the romance it was perhaps the genre of the age It has come down to us in such classics twelfth to fourteenth century classics as The Divine Comedy the Romance of the Rose Piers Plowman Chaucer s early poetry and the works of Guillaume de Machaut This book redefines the dream vision by attending to its role in philosophical debate of the time a conservative role in defense of the high medieval synthesis of reason and revelation Lynch shows how the epistemological basis of this synthesis and the theories of visions that emerged from it drew on Arabic commentaries of Aristotle These theories informed poetic visions modeled on Boethius s Consolation of Philosophy a work she discusses in detail before turning to Alain de Lille Jean de Meun and Dante A final section on John Gower s Confessio Amantis shows how fourteenth

and fifteenth century writers extended and finally moved beyond the conventional form of the dream vision

The Work of Poetry John Hollander, 1997 The U S occupation of Japan transformed a brutal war charged with overt racism into an amicable peace in which the issue of race seemed to have disappeared During the Occupation the problem of racial relations between Americans and Japanese was suppressed and the mutual racism transformed into something of a taboo so that the two former enemies could collaborate in creating democracy in postwar Japan In the 1980s however when Japan increased its investment in the American market the world witnessed a revival of the rhetoric of U S Japanese racial confrontation Koshiro argues that this perceived economic aggression awoke the dormant racism that lay beneath the deceptively smooth cooperation between the two cultures This pathbreaking study is the first to explore the issue of racism in U S Japanese relations With access to unexplored sources in both Japanese and English Koshiro is able to create a truly international and cross cultural study of history and international relations
