Kokoszka,2023-08-25 T D Kokoszka grew up in Texas with a Jewish mother and a Polish American father While he was aware of roots going back to Eastern Europe from both families he found it hard to learn very much about them He knew that Polish people would whack one another with palm leaves around Easter and he knew that his great grandmother purportedly believed in forest spirits known as borowy However it wasn t until he was in his teens that he became vaguely aware of an ancient people known as the Slavs who gave rise to the Polish Ukrainian Russian Serbian Bulgarian Slovakian Slovene and Czech languages It quickly became clear to him that this was a family of cultures currently under represented in popular culture and even in western scholarship Not simply a regurgitation of scholarship from the Soviet period and presenting new analyses by using previously neglected resources *Bogowie A Study of Eastern Europe s Ancient Gods* offers one of the most painstaking scholarly reconstructions of Slavic paganism These new resources include not only an overview of folklore from many different Slavic countries but also comparisons with Ossetian culture and Mordvin culture as well as a series of Slavic folktales that Kokoszka analyzes in depth often making the case that the narratives involved are mythological and shockingly ancient Readers will recognize many European folktale types and possibly learn to look at these folktales differently after reading this book **Cargo Cults and Millenarian Movements** G. W. Trompf,2012-10-25 The series Religion and Society RS contributes to the exploration of religions as social systems both in Western and non Western societies in particular it examines religions in their differentiation from and intersection with other cultural systems such as art economy law and politics Due attention is given to paradigmatic case or comparative studies that exhibit a clear theoretical orientation with the empirical and historical data of religion and such aspects of religion as ritual the religious imagination constructions of tradition iconography or media In addition the formation of religious communities their construction of identity and their relation to society and the wider public are key issues of this series **Runes: The Sacred Language of the Ancient Gods** Alina Rubi,2025-05-26 This book is a complete and experiential guide to the runes the ancient sacred alphabet that acts as an oracle magical symbol and path of inner transformation Through its history meaning practical uses and interpreted spreads you will discover how each rune holds a profound teaching an active energy and a voice of its own that can help you make decisions protect your energy and understand the cycles of life More than a

Docufictions Gary D. Rhodes,John Parris Springer,2014-10-01 Through most of the 20th century the distinction between the fictional narrative film and the documentary was vigorously maintained The documentary tradition developed side by side with but in the shadow of the more commercially successful feature film In the latter part of the century however the two forms merged on occasion and mockumentaries fictional works in a documentary format and docudramas reality based works in a fictional format became part of the film and television landscape The 18 essays here examine the relationships between narrative fiction films and documentary filmmaking focusing on how each influenced the other and how the two were merged in such diverse films and shows as Citizen Kane M A S H This Is Spinal Tap and Destination Moon Topics include the docudrama in early cinema the industrial film as faux documentary the fear evoked in 1950s science fiction films the selling of reality in mockumentaries and reality television and documentary forms The essays provide a foundation for significant rethinking of film history and criticism offering the first significant discussion of two emerging and increasingly important genres Instructors considering this book for use in a course may request an examination copy here **The Lost Continent of Pan** Susan B. Martinez,2016-12-15 Reveals the Pacific Ur culture that

seeded the ancient civilizations of China Egypt India Mexico and Peru Shows how the Pan diaspora explains the similarities between Gobekli Tepe and Toltec carvings and stone towers in Japan and on Easter Island Reveals the mother tongue of Pan hidden in shared word roots in vastly different languages including Quechua Sanskrit Japanese Greek and Sumerian Explains the red haired Caucasian mummies of China the Ainu of Japan the presence of white humans in early Native American legend and other light skinned peoples found in Southeast Asia and the Middle East The destruction of the vast continent of Pan also known as Lemuria or Mu in the Pacific Ocean 24 000 years ago was the greatest catastrophe that ever befell humanity Yet it resulted in a prehistoric Golden Age of arts and technology thanks to the Sons of Noah who forewarned and prepared for the disaster escaped in 5 organized fleets Theirs was the masterful Ur culture that seeded China Egypt India Mexico and Peru

explaining the sudden injection of the same advanced knowledge and sophisticated arts into those widely separated lands Examining the diaspora from the sunken continent of Pan Susan B Martinez finds traces of the oceanic Pan civilization in arts and technologies from canal works masonry and agriculture to writing weaving and pottery but most importantly in the art of navigation the hallmark of the survivors of the catastrophe Using archaeo linguistic analysis she reveals the mother tongue of Pan hidden in strikingly similar words for royalty deities and important places in vastly different languages including Quechua Maori Sanskrit Japanese Chinese Greek and Sumerian as well as English through the prefix pan which denotes all encompassing The author reveals how the Pan diaspora explains the mound builders on each continent the presence of white humans in Native American legend the red haired mummies found in China and the Ainu of Japan She shares recent genetic studies that reveal Polynesian DNA in central Europeans Mesopotamians South Americans and the 9000 year old Kennewick man and shows how Pan provides the missing link She reveals why carvings at Gobekli Tepe are similar to Toltec artistry why stone towers in Japan and Easter Island are identical and how the Pacific Ring of Fire was activated Moving the Garden of Eden from the Fertile Crescent to the South Seas Martinez strikes down the pervasive view of Atlantis as the source of ancient knowledge and exposes the original unity of mankind on the ancient Pacific continent of Pan **Scientific**

Herrick, 2008-01-01 What does science have to do with science fiction What does science fiction have to do with scientists What does religion have to do with science and science fiction In the spiritual vacuum of our post Christian West new mythologies continually arise The sources of much religious speculation however may be surprising Author James Herrick directs our attention to a wide range of scientists filmmakers science fiction writers and religious philosophers and discovers there the role that science and science fiction have played in such mythmaking From scientists such as Francis Bacon Francis Crick Carl Sagan and Freeman Dyson to filmmakers such as George Lucas and Steven Spielberg to science fiction writers such as Olaf Stapledon Sir Arthur C Clarke Robert Heinlein and Isaac Asimov Herrick finds a curious collusion of science with science fiction for promoting and justifying alternative spiritualities The rise of these new mythologies he argues is no longer a curiosity at the edge of Western culture This alchemy is catalyzing a religious vision of new gods a new humanity and alien races with superior intelligence and secret knowledge This new mythology overshadows the realms of politics science and religion Should we follow such visions Does science endorse these mythologies Are we being offered a spirituality superior to the Judeo Christian tradition This book will help you decide
