& Technology in Contemporary American Culture Nick Heffernan, 2000-12-20 In the tradition of Mike Davis and Fredric Jameson Nick Heffernan engages in a series of meditations on capital class and technology in contemporary America He turns to the stories we generate and tell ourselves via fiction film journalism theory to see how change is registered By investigating a variety of texts he observes how structural change affects the way people organise their lives economically socially and culturally Case studies include Ridley Scott's Blade Runner William Gibson's cyberspace trilogy Thomas Pynchon's The Crying of Lot 49 and Wim Wenders's Until the End of the World Using the links between narrative cultural forms and the process of historical understanding he brings together debates that have so far been conducted largely within the separate domains of political economy social theory and cultural criticism to provide a compelling analysis of contemporary cultural change By relocating postmodernism in the context of changing modes of capitalism Heffernan puts the question of class and class agency back at the centre of the critical agenda Science Fiction Adam Charles Roberts, 2006 Science Fiction offers a critical account of the phenomenon of science fiction illustrating the critical terminology and following the contours of its continuing history The impact of technological advances on the genre is discussed Scientific and Technical Aerospace Reports, 1995 *The Computing Universe* Anthony J. G. Hey, Gyuri Pápay, 2015 This exciting and accessible book takes us on a journey from the early days of computers to the cutting edge research of the present day that will shape computing in the coming decades It introduces a fascinating cast of dreamers and inventors who brought these great technological developments into every corner of the modern world and will open up the universe of computing to anyone who has ever wondered where his or her smartphone came from *Computing Technologies* Peter Salenicks, 1989 **The Oxford Handbook of Virtuality** Mark Grimshaw, 2014-02 The book is a compendium of thinking on virtuality and its relationship to reality from the perspective of a variety of philosophical and applied fields of study Topics covered include presence immersion emotion ethics utopias and dystopias image sound literature AI law economics medical and military applications religion and sex *Signal*, 2013 Digital Culture in Contemporary Fiction Jaime Harrison, 2024-02-22 What does it mean to be human in a world increasingly determined by algorithms How can fiction articulate identity and subjectivity in the face of technology which seeks to reduce us to raw data These questions drive a growing body of fiction about our contemporary moment written by authors whose interests extend beyond simply writing about digital culture on a surface level but who seek to delve into the computational constructs which underpin it Through readings of novels by Joshua Cohen Nicola Barker and Neal Stephenson and a visual novel developed by Grasshopper Manufacture *Digital Culture in Contemporary Fiction* offers the first analysis of the representation of computational algorithms and their cultural consequences in twenty first century fiction Harrison theorizes a new cultural moment in which he places these authors one characterized by a turn in software development towards incorporating models derived from behavioural psychology and vitally fuelled by an abundance of data Throughout its readings *Digital Culture in*

Contemporary Fiction traces how each author gestures towards the literary and philosophical hermeneutics of algorithms and in doing so defines an emerging tradition of fiction attempting to redefine the novel's relevance within digital culture

A World of Excesses Faltin Karlsen, 2016-03-16 This book explores gaming culture focusing on competent players and excessive use Addressing the contested question of whether addiction is possible in relation to computer games specifically online gaming A World of Excesses demonstrates that excessive playing does not necessarily have detrimental effects and that there are important contextual elements that influence what consequences playing has for the players Based on new empirical studies including in depth interviews and virtual ethnography and drawing on material from international game related sites this book examines the reasons for which gaming can occupy such a central place in people's lives to the point of excess As such it will be of interest to sociologists and psychologists working in the fields of cultural and media studies the sociology of leisure information technology and addiction
