Jewish Writing and the Deep Places of the Imagination Mark Krupnick,2006-01-09 When he learned he had ALS

and roughly two years to live literary critic Mark Krupnick returned to the writers who had been his lifelong conversation partners and asked with renewed intensity how do you live as a Jew when mostly you live in your head The evocative and sinuous essays collected here are the products of this inquiry In his search for durable principles Krupnick follows Lionel Trilling Cynthia Ozick Geoffrey Hartman Philip Roth Saul Bellow and others into the elemental matters of life and death sex and gender power and vulnerability The editors Krupnick s wife Jean K Carney and literary critic Mark Shechner have also included earlier essays and introductions that link Krupnick s work with the deep places of his own imagination The Pathless Path Paul Millerd,2022-01-13 Not all who wander are lost Paul thought he was on his way From a small town Connecticut kid to the most prestigious consulting firm in the world he had everything he thought he wanted Yet he decided to walk away and embark on the real work of his life finding the work that matters and daring to create a life to support that This Pathless Path is about finding yourself in the wrong life and the real work of figuring out how to live Through painstaking experiments living in different countries and contemplating the deepest questions about life Paul pieces together a set of ideas and principles that guide him from unfulfilled and burned out to a life he is excited to keep living The Pathless Path is not a how to book filled with hacks instead it is a vulnerable account of Paul s journey from leaving the socially accepted default path towards another one focused on doing work that matters finding the others and defining your own success This book is an ideal companion for people considering leaving their jobs embarking on a new path dealing with the uncertainty of an unconventional path or looking to improve their relationship with work in a fast changing world Reader feedback It s a rare book in that it is tangentially about careers and being more focused and productive but unlike almost every other book I have read about these topics I finished this one and felt better about myself and my career The themes are timeless The content is expertly written The advice is refreshingly non prescriptive If you have questioned your own path or a nagging lack of intention in your choices you need this book If you have felt a gradual loss of agency in your direction you need this book You are in the grip of an invisible script that was not written for you The writing is fantastic Paul s writing is approachably poetic a quick read that weaves together his own experience moving from a default path overachiever to a pathless path seeker of passion and curiosity deep research into the history of work and collections of perspectives from years of podcasting friendship conferences and meetings with other alternative path life lovers *Leadership and the Force of Love* John R. Cell,2012-01-13 In our quest to live a worthwhile life one we can affirm with a whole heart we experience much about life that we cannot affirm This confronts us with the question of whether there is something about life that can take us beyond its times of loss heartache and emptiness and bring a flourishing that endures No one can answer this question for another of course but we have much in common about the fundamentals of life and whatever answer we achieve will grow out of what we learn from one another I have written in this spirit drawing on what I have learned from others especially in teaching philosophy religion and psychology working with those who are dying bearing the loss of people I have cared deeply for and centering my life in times with friends and family that have brought deep meaning courage and delight Whatever flourishing we achieve will depend in part on fate all the physical social and psychological things that happen to us and that may work for us or against us This is especially likely to be an important side of our final stage of life Our well being though will also be a matter of how we engage life Some of this will be influenced by how we deal with whatever psychological problems life has brought but this book focuses rather on the creative life affirming uses to which we can put our basic human powers There are two fundamental perspectives those we can think of as secular and transcendental by which we in the West have been helped to experience this affirmative feeling for life I explore both perspectives for the insights they have to offer and ask what it is about life for all of us that can make possible new meaning greater intimacy and deepened belief Learning Transformations: Applied Sociological Imaginations from First Year Seminars and Beyond Mohammad H.
