Talking Oneself Sober Seán O'Halloran, 2008 This book is the first to deal comprehensively with the spoken discourse of Alcoholics Anonymous AA particularly within AA meetings These meetings are generally not easily accessible to researchers but are AA's central activity and provide the forum through which it operates AA is actually constituted and manifested through its discursive practices To therefore understand what happens in meetings is to appreciate AA particularly as it does not have a coherent system of defining propositional beliefs or a recognizable hierarchy and authorized spokesmen This study also examines AA written texts including Alcoholics Anonymous The Big Book and the Twelve Steps and Twelve Traditions Without a thorough knowledge of its written texts one can only have a limited understanding of AA meeting discourse since these written texts are constantly alluded to and are the source of the Twelve Steps which provide a framework and the guiding principles for AA life stories The first part of the book is a general introduction to AA and gives an account of how its discourse emerged Part two focuses on the personal narratives of AA its primary genre and it is noted how these specialize in a particular process of self evaluation allowing speakers to reconstruct their life stories through a process of co construction which enables members to make new attributions for both their alcoholism and their recovery It also examines the form and structure of the AA meeting where it is noted how the modern AA meeting is a formal even ritualized event all members having clear expectations of what is to happen The study also uses actual material from AA meetings to illustrate that AA meeting discourse is perhaps unique in the degree of discursive symmetry it creates between members Through sharing the individual voice of recovery gains ascendancy over the voice of active alcoholism This is not only as a manifestation of recovery but also constitutive of it as the voice of recovery is internalized creating for members a new alignment to the world and others Through constructing their compulsive drinking as a disease of body mind and spirit AA members find a new form of coherence in their lives which does not apportion blame either to themselves or the people and circumstances of their lives However they remain responsible for being in a fit state mentally and spiritually to resist the physical trigger the first drink In their accounts of everyday life AA members display their acceptance of people places and things as well as the display of willingness to work the AA programme Presenting their lives as governed by these two principles is evidence of a new personal alignment one less driven by self interest and more inclined to take opportunities as they arise rather than force events to their will This is seen as a spiritual realignment which challenges the previous alcoholic tendency to be at odds with other people and society at large

Research on Alcoholics Anonymous and Spirituality in Addiction Recovery Marc Galanter, Lee Anne Kaskutas,2008-12-05 It was once taken for granted that peer assisted groups such as Alcoholics Anonymous had no real value in recovery from addiction More recently evidence based medicine is recognizing a spiritual component in healing especially when it comes to addiction The newest edition of Recent Developments in Alcoholism reflects this change by focusing on the 12 step model of recovery as well as mindfulness meditation and other spiritually oriented activity More than thirty contributors bring together historical background research findings and clinical wisdom to analyze the compatibility of professional treatment and nonprofessional support day to day concepts of relapse prevention the value of community building in recovery and much more Among the topics covered 1 How and why 12 step groups work 2 The impact of the spiritual on mainstream treatment 3 The impact of AA on other nonprofessional recovery programs 4 AA outcomes for special populations 5 Facilitating involvement in 12 step programs 6 Methods for measuring religiousness and spirituality in alcohol research Whether one is referring clients to 12 step programs or seeking to better understand the process this is a unique resource for clinicians and

social workers Developmental psychologists too will find Volume 18 Research on Alcoholics Anonymous and Spirituality in Addiction Recovery a worthy successor to the series
