Each chapter begins with a checklist of issues to be considered at each stage of arbitration. Ahuja, 2022-05-23 The book explores the definition and nature of guerrilla tactics in international commercial arbitration. It analyses various such tactics deployed pre-Covid and during Covid times and portrays them in a way that enables one to visualise how and possibly why they might be deployed. Attempts to codify ethical standards and rules regulating the behaviour of legal representatives in international arbitration are examined. The book covers a range of culture clashes, addresses several elephants in the room, and looks at factors inherent in the arbitral process that create opportunities and increase temptations to misbehave. It considers the remedies and sanctions available in international arbitration and compares them to those available to the courts in civil litigation. In addition to recommendations for future research, the book offers solutions to curb the problem in line with party autonomy and with a critical analysis. This manuscript is an essential, solutions-based text that not only addresses a comprehensive range of modern-day guerrilla tactics in international commercial arbitration but also offers thoughtful methods to deal with the shenanigans that parties may bring to the arbitral process. Chiann Bao, Independent Arbitrator, Arbitration Chambers and Vice President of the International Chamber of Commerce Court of Arbitration. Dr Ahuja's book is a thoughtful and highly practical contribution to the study of procedures in international commercial arbitration. It is replete with scholarly analysis, careful treatment of authority, pragmatic insights, and policy discussions.
