Fall 2015

MEETING TIMES

Mondays & Wednesdays
1:00 – 2:00 pm
ATLS 1025

INSTRUCTOR

Brittany Ann Kops
brittany.kops@colorado.edu

Office Hours:
Wednesday 3-4
Friday 12-1
ATLAS 234

I am also available by
appointment.

REQUIRED MATERIALS

Portable Storage Device
Examples: USB Jump Drive,
Firewire Hard Drive, iPod, etc.
for saving and backing up your
work.

You are given 1GB of server
space, but you still need to
backup your work. Lost and/or
corrupted work is not an
acceptable excuse for late
work.

REQUIRED TEXTS

Learning Processing: A
Beginner's Guide to
Programming Images,
Animation, and Interaction 2nd
Edition
Daniel Shiffman
978-0-12-364443-6

This book is available in the
CU Bookstore and online. You
must have this book by the
second day of class to avoid
falling behind.

ATLS 235

COURSE DESCRIPTION

The field of digital media continues to be propelled forward by technological advances, making it essential for artists, designers, and media producers to expand their technical knowledge and skillset in order to fully participate. This course introduces basic programming concepts and methodologies that will be applied to the creation and manipulation of information, images, animation, and sound. Students will gain the knowledge and skills needed to fully participate in digital media production.

My personal goal for you is that you will not only understand how to program, but you will begin to appreciate its relevance in today's digital media landscape.

This course is technical and can be challenging for many students. If you find yourself struggling, please let me know as soon as possible as waiting will only compound the problem.

If you are familiar with programming and are concerned that this class won't be beneficial and/or challenging for you, please see me so that we can ensure that this course is a useful experience.

COURSE CONTENT

In this class I reserve the right to show a broad range of course materials, some of which assume the audience to be adult in age and demeanor. Should you feel offended by something you have seen or heard, I would appreciate you staying to be part of a dialogue as I welcome your perspective. If you feel that you cannot stay, feel free to excuse yourself from the classroom as discreetly as possible.

COURSE WEBSITE

For this class, we will be using Edmodo.com. On this site you will find a course calendar, assignments, resources, and grades. Additionally, this is where you will submit your labs and projects. I will send an invitation to registered students after the first class.

EMAIL

You must use your Colorado.edu email account for this course. Please check your email and the class website regularly. I will notify you of all class cancellations and scheduling changes via the class website and/or email. It is my goal to respond to all emails within 24 hours. If I fail to reply within 24 hours, feel free to resend.

CLASS STRUCTURE

This will be a semi-flipped classroom. Before class, I will assign readings and Khan Academy tutorials. You will be expected to have completed this "prep-material" before the start of class. The prep-material readings will introduce you to the new material and the Khan Academy tutorials will give you practice programming with these new concepts.

In class we will work through various "challenges" that will go a little more in-depth with the material and will solidify your knowledge of the material. You will be assigned a lab that will be a creative or practical application of the new material.

Atls Code Free

Matthew D. Tadlock, Amy A. Hernandez

Atls Code Free:

Emergency Management of the Trauma Patient Mark Bisanzo, Kriti Bhatia, Michael R. Filbin, 2007 Emergency Management of the Trauma Patient Cases Algorithms Evidence provides a practical and realistic approach to managing a trauma code with a complete review of ATLS protocols Each chapter begins with the presentation of a trauma scenario and emphasizes the clinical skills needed to make important management decisions Literature references are highlighted within the chapters and provide a discussion of pivotal journal articles relevant to the topic at hand Algorithms are integrated into the chapters to serve as a roadmap for patient management **The National Underwriter**, 1963 **California International Trade Register**, 1995 Reverse Acronyms, Initialisms, & Abbreviations Dictionary, 2007 **Proceedings of the Future Technologies Conference (FTC) 2022, Volume 3** Kohei Arai, 2022-10-13 The seventh Future Technologies Conference 2022 was organized in a hybrid mode It received a total of 511 submissions from learned scholars academicians engineers scientists and students across many countries The papers included the wide arena of studies like Computing Artificial Intelligence Machine Vision Ambient Intelligence and Security and their jaw breaking application to the real world After a double blind peer review process 177 submissions have been selected to be included in these proceedings One of the prominent contributions of this conference is the confluence of distinguished researchers who not only enthralled us by their priceless studies but also paved way for future area of research The papers provide amicable solutions to many vexing problems across diverse fields They also are a window to the future world which is completely governed by technology and its multiple applications We hope that the readers find this volume interesting and inspiring and render their enthusiastic support towards it *Expeditionary Surgery at Sea* Matthew D. Tadlock, Amy A. Hernandez, 2023-03-16 Currently no comprehensive practical surgical textbook or other reference exists for the management of injured and other surgical patients at sea This text focuses on the increasingly important field of medical and surgical management of patients in the modern expeditionary maritime environment The editors and contributors to this new handbook are a group of physicians nurses and corpsmen with extensive experience in caring for patients in the expeditionary maritime environment designing and implementing current doctrine and policy and publishing peer reviewed articles focused on these topics This handbook takes the approach of a how to manual for the management of combat or disaster victims beginning at the point of injury and proceeding through each stage of care until they leave the maritime environment This includes sections on prehospital care triage en route care and maritime mass casualty management as well as additional chapters covering unique aspects of maritime platforms capabilities and missions The bulk of the book focuses on the initial patient evaluation and resuscitation as well as the operative and perioperative phases of care including prolonged casualty care The primary focus throughout the book is on simple practical and proven practices that can be easily understood and implemented by physicians and independent providers of any experience level who may find themselves in similar situations For the clinical chapters each

begins with a clinical vignette relevant to the chapter based on actual patients or maritime scenarios experienced by the authors demonstrating the various challenges that can occur caring for injured and surgical patients at sea while deployed on maritime and amphibious platforms When appropriate each clinical chapter will conclude by describing the recommended management and outcome of the patient s presented in the vignette that opened the chapter The style is plain and direct language avoiding scientific jargon and unnecessary complexity whenever possible Each chapter begins with 5 to 10 bullet points that summarize the key information or BLUF bottom line up front from that chapter and conclude with common tips and pitfalls as well as recommended high yield resources for the entire maritime surgical team **Asia Today**

International ,2002 Biennial Report California State World Trade Commission,1986 **Emergency Management of the Pediatric Patient** Nathan W. Mick,Brian M. Cummings,2007 Emergency Management of the Pediatric Patient Cases Algorithms Evidence is a must have manual detailing effective strategies for initial stabilization and treatment of the critical pediatric patient including PALS review This book is intended to provide practical high yield facts and walk its readers through the many steps involved in critically thinking about and caring for acutely ill children predominantly within the emergency department Key features include clinical case scenarios of real life emergency situations inclusion of literature and evidence that has molded emergency medicine clinical practice and a pocket sized card with algorithms for quick reference to protocols *Epheremon: The Particle of Time (The 1st Book of the FAUSTEF TRILOGY)* V. Alexander STEFAN,2002 Badonna an immortal woman code 12 talks to Faustef about the nature of Time Faustef a graduate student in physics is getting ready for the defense of his thesis the next morning His thesis is based on the nature of Time as an infinite continuum Badonna tells him that Time is a corpuscular fluid that the Time Corpuscle is referred to as the ephemeron She tells Faustef about the spherical time matrix the carpet of existence and about the nature of time travel She tells him that Lucifer and she are the first children in creation of QUALB the Giver the Creator of all that there is that Orpheus is a son in birth of QUALB the Giver that Lucifer before his exile was the Master Guardian of the Atlantis Universe our Universe and the 21 Sibling Universes that she is referred to as the Mother of the Atlantis Universe and the 21 Sibling Universes Faustef is disappointed with his thesis decides to withdraw it and write a new one based on the ephemeron concept His new thesis is rejected by the Examination Board as a far fetched idea being more the work of the magus than a physicist Faustef is advised by the Board to resubmit his old version of the thesis which he does and defends it successfully **What is Teaching in the Lifelong Learning Sector?** Ann Gravells,2012-05-18 This is a handbook for anyone considering a career in teaching adults It offers an essential introduction to what it is like to teach in the sector It considers the diversity of contexts settings and students covering all you need to know It reviews the role of the teacher and offers advice on choosing what to teach and how to become qualified Whether you are a skilled tradesperson have specialist knowledge in a particular subject or are simply enthusiastic about working with adults in an education role this is your essential guide An easy to read and accessible

guide Considers a diverse range of contexts settings and students Written for anyone considering approaching or beginning teaching adults Please note The qualifications and standards mentioned in the book have since been updated
