Caring Hearts and Critical Minds Steven Wolk, 2023-10-10 Imagine if going to school meant more than preparing kids for a test teaching a canned curriculum and training students for their future as workers What if school were also about cultivating students to be caring community involved citizens and critical creative thinkers who love to read In *Caring Hearts Critical Minds* teacher author Steven Wolk shows teachers how to help students become better readers as well as better people I want my students to be thinkers and have rich conversations regarding critical issues in the text and be able to formulate opinions regarding these issues says Leslie Rector a sixth grade teacher who collaborated with Wolk on some of the units featured in this book Wolk demonstrates how to integrate inquiry learning exciting and contemporary literature and teaching for social responsibility across the curriculum He takes teachers step by step through the process of designing an inquiry based literature unit and then provides five full units used in real middle grade classrooms Featuring a remarkable range of recommended resources and hundreds of novels from across the literary genres *Caring Hearts Critical Minds* gives

teachers a blueprint for creating dynamic units with rigorous lessons about topics kids care about from media and the environment to personal happiness and global poverty Wolk shows teachers how to find stimulating real world complex texts called for in the Common Core State Standards and integrate them into literature units I know from experience that a great book changes the reader says Karen Tellez an eighth grade teacher featured in the book For me books have helped me escape fall in love recover from heartbreak and have broken open my mind from the age of twelve I hope my students gain better reading comprehension confidence as readers connections to the characters and events a curiosity for the world and tolerance for others Caring Hearts Critical Minds shows teachers how to turn these hopes and goals into reality

New Realms for Writing Michele Haiken, 2019-06-14 Boost students communication and writing skills with strategies and examples to help them craft their own stories tell their truth and be heard The world should be the driving curriculum in our schools Assignments should be authentic have real world connections and encourage students to create meaningful work Accordingly content created and read in school should go beyond books and include podcasts popular culture games and films to help students build writing and critical thinking skills New Realms for Writing features a variety of teacher created resources and samples of student work to illustrate how teachers can design inquiry units for their content area that are authentic and engage students while developing digital age skills This book Provides insights into creating and using innovative materials and texts that are differentiated and personalized to student learners specifically for teaching writing Provides pedagogy and lesson ideas that promote student choice and voice within units of study that make cross curricular connections Offers tips to ensure that tech tools support student learning while not driving it There are many great tech tools to support learning but the conversation must center on thoughtful teaching and purpose with tech supporting robust pedagogy This book offers strategies and lesson ideas to help teachers make sure their instruction does just that Audience K 12 educators

Assessment in Perspective Clare Landrigan, Tammy Mulligan, 2013 Assessment is an integral part of instruction For the past decade the focus on assessment particularly via high stakes mandated tests has shifted away from the classroom and left teachers feeling like they are drowning in data Assessment is and needs to be again much more than a number Assessment in Perspective is about moving beyond the numbers and using assessment to find the stories they tell This book helps teachers sort through the myriad of available assessments and use each to understand different facets of their readers It discusses how to use a range of assessment types from reading conference notes and student work to running records and state tests together to uncover the strengths and weaknesses of a reader The authors share a framework for thinking about the purpose method and types of different assessments They also address the questions they ask when choosing or analyzing assessments What type of tool do we need diagnostic formative or summative formal or informal quantitative or qualitative How do we use multiple assessments together to provide an in depth picture of a reader When and how are we giving the assessment Do we want to be able to compare our readers to a standard score or do we

need to diagnose a reader's needs Which area of reading does this tool assess How can we use the information from assessments to inform our instruction What information does a particular assessment tell us and what doesn't it tell us What additional information do we need about a reader to understand his or her learning needs The book emphasizes the importance of triangulating data by using varied sources both formal and informal and across multiple intervals It explains the power of looking at different types of assessments side by side with displays to find patterns or inconsistencies What's more students are included as valuable sources of data Letting students in on the process of assessment is key to helping them set goals monitor their own progress and celebrate growth When assessment is viewed in this way instruction can meet high standards and still be developmentally appropriate
