Nursing Research: Reading, Using, and Creating Evidence(Second Edition) Janet Houser, PhD, RN, **Book Alone:**
Nursing Research Janet Houser,2011-05-24 **Book Alone** Janet Houser,2011-06-02 Essential for nursing research courses Nursing Research Reading Using and Creating Evidence Second Edition demonstrates how to use research as the basis for successful nursing practice Fully updated and revised this reader friendly new edition provides students with the fundamentals of appraising and utilizing research Organized around the different types of research in evidence based practice it addresses contemporary concerns especially ethical and legal issues Additionally it explores both quantitative and qualitative traditions to encourage students to read use and participate in the research process *Cumulated Index Medicus* ,1969 **Current Challenges and New Directions in Preventive Medicine, An Issue of Medical Clinics of North America, E-Book** Marie Krousel-Wood,2023-10-10 In this issue of Medical Clinics of North America guest editor Dr Marie Krousel Wood brings her considerable expertise to the topic of Current Challenges and New Directions in Preventive Medicine Top experts in the field provide evidence based recommendations and strategies for common preventative medicine topics including screening and vaccinations Contains 13 relevant practice oriented topics including vaccine preventable diseases and vaccine hesitancy substance use opioid use disorder and clinical care obesity implementing evidence strategies in clinical practice healthcare providers and staff coping and burnout in the era of COVID 19 lifestyle medicine and more Provides in depth clinical reviews on preventive medicine offering actionable insights for clinical practice Presents the latest information on this timely focused topic under the leadership of experienced editors in the field Authors synthesize and distill the latest research and practice guidelines to create clinically significant topic based reviews *Current Issues on Digital Transformation, Corporate Entrepreneurship, and Coopetition* Anna Ujwary-Gil,2024-01-01 An integrated PLS SEM model on the interplay of antecedents and moderators driving corporate entrepreneurship activity in South Africa PURPOSE Corporate entrepreneurship CE is a multi faceted phenomenon and although there is extant research on CE there are knowledge gaps that warrant a deeper understanding Indeed focusing solely on independent variables overlooks the extent to which CE activities are mutually and reciprocally supportive We align our article with research calls for theory building which provides a novel understanding of the dynamic complexity of the CE process METHODOLOGY In this regard we formulate and empirically evaluate an integrated CE model that reflects the integrative complexity of the antecedents driving CEA The study context is the South African banking sector where primary data n 312 is obtained via a structured survey Four meta hypotheses and several sub hypotheses reflecting the organizational individual and environmental level antecedents are tested using partial least squares structural equation modeling PLS SEM FINDINGS The main study finding validates that corporate strategy is the bedrock of CEA The results also reveal that entrepreneurial strategy entrepreneurial structure transformational leadership organizational resources and an entrepreneurial mindset are significant predictors of CEA

IMPLICATIONS Practical implications highlight that it is important for managers to consider the configuration of the predictors within the CE model which function as pathways to entrepreneurial corporate strategy **ORIGINALITY AND VALUE** Our study makes a unique contribution by developing and testing an integrated and comprehensive model reflecting the dynamic complexity of the antecedents driving CEA It is anticipated that the results will allow researchers to compare and examine comparable antecedents to CEA and their applicability in global country contexts **Keywords** corporate entrepreneurship antecedents entrepreneurial strategy organizational resources transformational leadership entrepreneurial mindset partial least squares structural equation modelling PLS SEM South Africa Pushing coopetition research further Understanding relevance and operationalization of the attributes of coopetition strategies and cooperative relationships

PURPOSE Although coopetition was defined three decades ago and is intensively investigated its theoretical and research cognition remains far from thoroughly understood The lack of conceptual consistency prevents researchers from conducting comparable research leading to more generalizable results and thus from building coherent knowledge This study addresses the above shortcoming by the development of operationalizations of two types of attributes assigned to coopetition strategic attributes characterizing coopetition strategies and relational attributes characterizing cooperative relationships

METHODOLOGY In our study we adopted a two step research process consisting of qualitative verification of a list of 8 coopetition attributes 2 strategic and 6 relational identified in prior literature as relevant for coopetition success and the development of integrative conceptualization and measurement approaches for them The verification was conducted through focus group interviews with scholars experienced in coopetition research and senior managers from firms adopting coopetition strategies The measurement approaches for the positively verified attributes were developed through the integration of 1 approaches used so far in coopetition literature 2 approaches used to date in the literature on the features of inter organizational relationships and 3 approaches that emerged during the focus group interviews

FINDINGS This study shows two strategic i e dynamics and paradoxicality and six relational i e asymmetry complexity intensity mutual dependence strength and tensions coopetition attributes as heterogeneously relevant for coopetition success and offers multi item operationalizations for them derived from a combination of prior literature and qualitative research

IMPLICATIONS Our paper shows strategic and relational attributes of coopetition as theoretically and practically relevant for coopetition success

ORIGINALITY AND VALUE As a contribution this study offers scientifically grounded operationalizations of eight attributive success factors of coopetition The developed measurement proposals can find valuable applications in two ways First coopetition researchers can use them in their studies and a consistent measurement approach will allow for the comparison of research results bringing us closer to drawing more general conclusions Second coopetition practitioners can use these proposals when managing coopetition for instance to evaluate monitor and intentionally shape them to make coopetition more successful

Keywords coopetition focus group interviews operationalization measurement scale cooperative relationships

coopetition strategies Guiding incumbent companies in navigating digital transformations A qualitative study on structural ambidexterity and strategic leadership PURPOSE Despite digital transformation being a focus topic for incumbent companies organizational structures are a significant barrier to their success Referring to the positive correlation between ambidexterity and digital innovation our research provides guidance on structural ambidexterity for incumbent companies Previous research has barely differentiated between exploration and exploitation in digital transformation In the present paper we fill part of this research gap by focusing on structural ambidexterity in digital transformations and providing guidance on how incumbent companies can overcome organizational challenges METHODOLOGY Our research is based on an explorative research design with 33 semi structured interviews that allow in depth information The interview partners were selected using purposive sampling and represented different industry and hierarchy levels All of them have been in a position related to digital transformation in an incumbent company for the last two years We ensure scholarly rigor using thematic analysis to analyze our data FINDINGS Our decision tree guides separation or integration based on the closeness of digital activities to the core business and the association of the activities to exploration or exploitation Additionally we recommend considering the digital maturity grade in the decision making Developing a cross functional digital transformation strategy and pursuing a balanced portfolio fosters ambidexterity in digital transformation Clear responsibilities collaborative decision making candidate selection and collaboration with IT are essential leadership activities IMPLICATIONS for theory and practice Our research expands the existing research on digital transformations of incumbent companies We specifically contribute to the limited details on how to separate digital activities considering an exploration exploitation perspective Our study guides practitioners to address one of their major challenges in digital transformations with the help of our decision tree ORIGINALITY AND VALUE Based on the positive correlation between ambidexterity and digital innovation our study contributes to the existing research by providing in depth knowledge of structural ambidexterity in digital transformations This detailed information is essential to provide knowledge on enabling the positive correlation between ambidexterity and innovation in the context of structural ambidexterity Keywords digital transformation digitalization organizational structures structural ambidexterity temporal ambidexterity incumbent companies guidelines Leveraging green innovation from big data analytics Examining the role of resource orchestration and green dynamic capabilities PURPOSE The notion of big data analytics BDA has received increased attention from both researchers and managers Keeping in view the significance of BDA the current research aims to examine the role of BDA capability to leverage firm green innovation GI Drawing from the dynamic capability view current study suggests that BDA capability prompts green dynamic capabilities DCs enabling organizations to attain GI successfully Particularly present study proposes that BDA analytics prompt GI directly as well as through green DCs Moreover this study also draws from complementarity perspective and proposes that resource orchestration capability ROC is likely to enhance the effectiveness of green DCs in

eliciting GI Thus the objectives of the current study are threefold first it aims to unveil the role of BDA capability in prompting GI second it examines the mediating role of green DCs for the relationship between BDA capability and GI and third this research examines the moderating effect of ROC to examine if it strengthens the effects of green DCs

METHODOLOGY This study involves testing hypotheses using primary data collected by using the method of survey questionnaire The data were collected from 291 Pakistani organizations Pakistan is an emerging economy where businesses are responsible for substantial amounts of carbon di oxide and greenhouse gasses GHG emissions Therefore Pakistani organizations serve as a suitable context for the study The respondent organizations were from both the manufacturing and service sectors PLS SEM was employed as an analytical approach for testing the hypotheses Construct validity and reliability were confirmed prior to hypotheses testing

FINDINGS Results demonstrate that BDA capability positively affects GI 0 33 p

Handbook of Entrepreneurship Research ZOLTAN ACS, DAVID AUDRETSCH, 2006-04-07 Interest and attention to entrepreneurship has exploded in recent years Yet much of the research and scholarship has remained elusive to academics policymakers and other researchers This reflects two crucial aspects of the entrepreneurship literature First has been the explosion of new findings and insights both theoretically and empirically Second most of this scholarship has been rooted in traditional academic disciplines spanning a broad spectrum of fields such as management finance economics sociology and psychology The purpose of the *Handbook of Entrepreneurship* is to bring together leading scholars from each of these disciplines to provide an overview of what the issues are for entrepreneurship when viewed through the lens provided by the academic disciplines as well as a synthesis about what has been learned and what questions should be high on the agenda for future research Taken together this *Handbook* will provide a roadmap to an

emerging complex but intriguing field of entrepreneurship

Developing Thinking and Understanding in Young

Children Sue Robson, 2012-01-19 *Developing Thinking and Understanding in Young Children* presents a comprehensive and accessible overview of contemporary theory and research about young children's developing thinking and understanding. Throughout this second edition the ideas and theories presented are enlivened by transcripts of children's activities and conversations taken from practice and contemporary research helping readers to make links between theory, research and practice. Each chapter also includes ideas for further reading and suggested activities. Aimed at all those interested in how young children develop through their thoughts and actions, Sue Robson explores theories of cognitive development, the social, emotional and cultural contexts of children's thinking, children's conceptual development, visual thinking approaches to supporting the development of young children's thinking and understanding, latest developments in brain science and young children, the central roles of play and language in young children's developing thinking. Including a new chapter on young children's musical thinking, expanded sections on self-regulation, metacognition and creative thinking, and the use of video to observe and describe young children's thinking, this book will be an essential read for all students undertaking Early Childhood Primary PGCE and EYPS courses. Those studying for a Foundation degree in Early Years and Childcare will also find this book to be of interest.

Understanding Research in Education Fred L. Perry Jr., Joe D. Nichols, 2014-07-25 This text provides a solid introduction to the foundations of research methods with the goal of enabling students and professionals in the various fields of education to not simply become casual consumers of research who passively read bits and pieces of research articles but discerning consumers able to effectively use published research for practical purposes in educational settings. All issues important for understanding and using published research for these purposes are covered. Key principles are illustrated with research studies published in refereed journals across a wide spectrum of education. Exercises distributed throughout the text encourage readers to engage interactively with what they are reading at the point when the information is fresh in their minds. This text is designed for higher-level undergraduate and graduate programs. Course instructors will find that it provides a solid framework in which to promote student interaction and discussion on important issues in research.
