*Auspices* C. F. Konrad, 2022-07-28 No public action of the Roman state the *populus Romanus* at home or at war was to be carried out without prior permission from Iuppiter Optimus Maximus Permission was obtained in a procedure known as *auspices* by the magistrate in charge of the intended action usually a Consul Praetor or Dictator *Auspices* thus occupy a fundamental place in the unwritten constitution of the Roman State Yet especially in the 3rd century BCE acceptance of the principle was not always universal *The Challenge to the Auspices* presents an investigation into the interaction of Roman magistrates during the Middle Republic with the practice of *auspices* with a focus on attempts to avoid ignore or resist this requirement Proceeding from an examination of the Roman concepts of *imperium* and *auspices* *auspicia* especially as they relate to the realm of war and of the constitutional position and powers of the Dictator and the Master of Horse *magister equitum* relative to each other and to the Consuls and lower magistrates the work offers six case studies in which Roman

commanders questioned violated or openly rejected the need for auspices It is argued that these instances reflect a not insignificant minority view within the Roman ruling class regarding the efficacy of auspices and the necessity of observing them The catastrophic outcome in several of these events particularly during the early years of the Second Punic War rendered further resistance to the practice politically unsustainable and by the second century resulted in its universal acceptance regardless of personal belief      The Flight of Icarus Yiannis Drossos,2020-12-10 This book provides a detailed analysis of the institutional transformations brought about by the financial crisis focusing on the institution building course of Europe and the Constitution bending course in several Member States It discusses the seemingly contradictory interplay between national and European institutions and the law resulting from the crisis arguing that the anti crisis exceptionality constitutes the matrix of the new normality of the reformed European economic governance The author carries out a critical analysis of the new economic governance and its case law with regular reference to relevant political episodes key economic figures and to the hitherto lax modes and rules The author also offers deep insights into the Greek adjustment programme and the crisis related Greek and Portuguese constitutional case law presented in comparison with the German and French case law The book concludes with a critical overview of the profound mutations in the role of national Constitutions instigated by the new European economic governance and the emergence of a democratically deficient meta constitutional mode of functioning of both the European institutions and national Constitutions      **The Leap of Faith** Sven H. Alex-Assensoh, 2022-04-27 The global rise in pandemics most recently COVID 19 and other health challenges some of which are due to climate change have imposed significant challenges on the healthcare systems in economies around the world Thus this book deals with an issue that is very timely and relevant not just in Africa but globally It critically assesses healthcare reforms in Ghana under the Fourth Republic since 1993 Although it focuses on Ghana s National Health Insurance Scheme of 2003 the book instructively goes beyond this program The book argues that although Ghana is a bellwether of healthcare reforms in Africa its healthcare initiatives are still far from the service haven of healthcare as a human right Themes that animate the book s argument include the need to translate human rights law such as the right to health into practical policies that work for ordinary citizens Key highlights of the book include an increased accent on health as a human right emphasis on comparative analysis in healthcare studies and the formulation of a four hallmark framework embedded in economics law politics and human rights to act as a guide for assessment of healthcare reforms in Africa in particular and Ghana more specifically Using Ghana as a case study and analytical window into the world the book offers a valuable and timely resource for academics students and policymakers across the disciplines of development and healthcare economics law public policy political science sociology and African and Caribbean studies as well as in various fields in health science [International Encyclopedia of Geography, 15 Volume Set](#) Noel Castree, Michael F.
