CP - Autosomal Recessive Pedigree Practice

Autosomal inheritance follows simple Mendelian Genetics because the genes are located on the first 22 chromosomes. Autosomal recessive traits only show up when the individual is homozygous recessive.

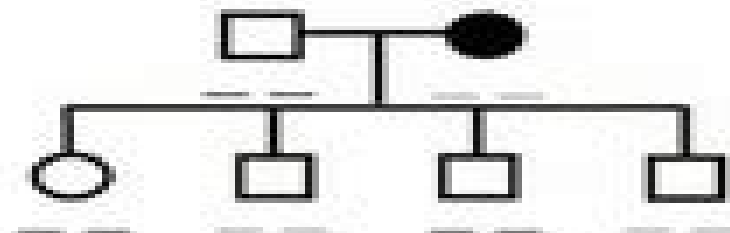

Directions: Write the genotype below each circle and square in the pedigree. Shade in any carriers with half a circle or square. If you don't know an allele in a genotype, place a '?' in its place. Sometimes the '?' will be the correct answer.
