

(a) Responses to Natalie's questions

1. The mixers should be classified as inventory as they are for resale.
2. A perpetual inventory system will provide better control over inventory. Because you are dealing with high-value items you should use the perpetual system.
3. You still need to count inventory to ensure that your records are accurate and that the inventory that is supposed to be on hand is actually there. I suggest you should count the inventory once a month.
